SUBJECT INDEX*

A

Abdominal aorta, avoidance of shock and peripheral embolism during surgery of (Imparato et al.), 68
infrarenal, paraplegia complicating resection of aneurysms of (Golden et al.), 91
wound closure, monofilament, figure-of-8 through-and-through, with wound splints: elimination of evisceration in poor-risk wounds over 25 years (Dennis and Aka), 171

Abscess, liver, bacterioides (Futch, Zikria, and Neu), 59

Acid, gastric, output and plasma gastrin concentration after calcium infusions in conscious monkeys, dissociation of (Rosato et al.), 207

Acidosis in development of increased pulmonary vascular resistance and shock lung in experimental hemorrhagic shock, role of (Kim and Shoemaker), 723

ACTH effect on corticosteroid concentration in monkey bile, as measured by competitive protein-binding analysis (Herman et al.), 74

Adenoma in a fifth parathyroid gland: role of selective venous catheterization (Monchik, Nelson, and Powell), 782
hepatocellular, benign, massive hemoperitoneum from rupture of (Davis, Schenken, and Zimmerman), 181

Adrenal myelolipoma (Olsson et al.), 665
steroid replacement, postoperative, plasma cortisol and cortisone concentrations following (Newsome and Manalan), 429

Adrenergic excitant in pulsatile circulatory support, analysis of pulse frequency as (Harrison and Seaton), 868
stimulation and blockade, hemodynamic effects of: venous occlusion in canine hindlimb (Wright at al.), 507

Allografts, heart, rat, use of urokinase, pyridinolcarbamate, and dypiridamole in (Ono, Hattori, and Inokuchi), 128
kidney, rat, circadian variation in rejection of (Ratte et al.), 102

Ambulatory health-care delivery and surgeon (Egdahl) (editorial), 637
surgical care: basic concept and review of 1,000 patients (Davis), 483

American Trauma Society—lessons learned from cancer and coronaries (Morse), 806

Anatomical hepatic lobectomy in trauma to liver (Donovan, Michaelian, and Yellin), 833

Anesthetic agents, fat-soluble, on tracheal-bronchial secretion surface tensions, effects of (Stanley and Zikria), 386

Aneurysm(s), artery, ulnar, of hand (Gaylis and Kushlick), 478
false, and arteriovenous fistula as cause of consumption coagulopathy (Rhodes, Cox, and Silver), 535
of infrarenal abdominal aorta, paraplegia complicating resection of (Golden et al.), 91
ruptured, of hypogastric artery (Wirthlin and Warshaw), 629

Angiographic contrast media: a historical résumé (Killen), 333

Angiography and dissection, postmortem, of hypogastric artery in pelvic fractures (Huittinen and Slätis), 454
femoral, percutaneous, surgical management of arterial occlusion following (Yellin and Shore), 772

Anorectal malformations, plain films in (Cremin) (letter to editors), 161

Anoxia, protective effect of myocardial glycogen on cardiac function during (Hewitt et al.), 444

Antibacterial agent, effective: Septisol Antiseptic Foam for hands of operating room personnel (Gravens et al.), 360
effect of treating sutures with silver (Gravens et al.), 122

Antibiotics, surgery, and hyperbaric oxygen, comparative study of experimental *Clostridium perfringens* infection in dogs with (Demello, Haglin, and Hitchcock), 936

Antibody-diphtheria toxin conjugate, improved selective cytotoxicity with (Philpott, Bower, and Parker), 913

Antiseptic Foam, Septisol, for hands of operating room personnel: effective antibacterial agent (Gravens et al.), 360

Antrum, isolate, retained, by using technetium-99m, visualization of (Safaie-Shirazi et al.), 278

Aorta, abdominal, avoidance of shock and peripheral embolism during surgery of (Imparato et al.), 68
infrarenal, paraplegia complicating resection of aneurysms of (Golden et al.), 91

Aorticocoronary vein grafts, radiographic marker for (Pate and Richardson), 200

Appendix, carcinoid tumors of (Dent, Batsakis, and Lindenauer), 828
mass, conservative management of (Thomas), 677

Arterial embolism, experimental: study using scanning electron microscopy to identify changes in luminal surface ultrastructure after exposure to implanted emboli (Hamer), 500
obstruction, small vessel occlusion in extremity after various periods of: experimental study (Dunant and Edwards), 240

*January, pp. 1-162; February, pp. 163-322; March, pp. 323-482; April, pp. 483-638; May, pp. 639-802; June, pp. 803-970.

Arterial—Cont'd
occlusion following percutaneous femoral angiography, surgical management of (Yellin and Shore), 772
reconstruction, comparison of Dacron velour and venous patch grafts for (Menon et al.), 423
renal, focal, vs. overt generalized arteriosclerosis, prognostic implications of: renal revascularization for arteriosclerotic renovascular hypertension (Ernst et al.), 859
stripping, inadvertent, in lower limb: problems of management (Eger et al.), 23
thrombosis formation, experimental, in vivo by proteolytic enzyme perfusion and role of elastin layer (Kabemba, Mayer, and Hammond), 438
Arteriosclerotic renovascular hypertension, renal revascularization for: prognostic implications of focal renal arterial vs. overt generalized arteriosclerosis (Ernst et al.), 859
Arteriovenous fistula, congenital, limb blood flow in (Yao et al.), 80
and false aneurysm as cause of consumption coagulopathy (Rhodes, Cox, and Silver), 535
shunt, limb, following sympathetic denervation (Delaney and Scarpino), 202
rewarming following experimental hypothermia, cardiovascular effects of (Gregory, Patton, and McFadden), 561
subcutaneous, new: applicable in cases where the standard Quinton-Scribner shunt and arteriovenous fistula have failed (Buselmeier et al.), 512
Artery, celiac, anatomic basis for respiratory variation in median arcuate ligament compression of (Reuter and Bernstein), 381
coronary, circumflex, and its branches, exposure of (Green), 66
hepatic, infusion, selective, percutaneous, of 5-fluorouracil, treatment of metastatic carcinoma of liver by (Tandon, Bunnell, and Cooper), 118
hypogastric, in pelvic fractures, postmortem angiography and dissection of (Huittinen and Slätis), 454
ruptured aneurysms of (Wirthlin and Warshaw), 629
ulnar, aneurysms of hand (Gaylis and Kushlick), 478
and veins, large, leiomyosarcoma of (Kevorkian and Cento), 390
Aspiration cytology in carcinoma of pancreas (Forsgren and Orell), 38
Assay methods, gastrin, questioning (Malmstrøm, Stadil, and Rehfeld) (letter to editors), 481; reply (Jordan and Yip), 481
Atheroembolism, peripheral: confirmation of clinical concept with case report and review of literature (Wagner and Martin), 353
Atrial myxoma, surgical considerations of (Adebonojo et al.), 220

B

Bacteroides liver abscess (Futch, Zikria, and Neu), 59
Barrier, mucosal, gastric, effect of metabolic inhibitors on (Ritchie and Fischer), 614
Bile duct, divisional, aberrant: surgical hazard (Pollack and Tabrisky), 234
strictures, surgical treatment of (Lindenauer), 875
human, effect of dietary cholesterol on composition of (DenBesten, Conner, and Bell), 266
monkey, effect of ACTH on corticosteroid concentration in, as measured by competitive protein-binding analysis (Herman et al.), 74
reflux in experimental stress ulcer (Braun et al.), 521
Biliary tract calculi, residual, treated without reoperation, review of 220 cases of: eight-year study (Mazzariello), 299
Biopsies in burn patient care, use of (Pruitt and Foley), 887
Blind loop syndrome and ileal resection, or disease: current concepts of pathophysiology (Fromm), 639
Blockade and stimulation, adrenergic, hemodynamic effects of: venous occlusion in canine hindlimb (Wright et al.), 507
Blood cell aggregation, serotonin-induced, in dog, inhibition of (Pitzele, Sze, and Dobell), 416
flow, limb, in congenital arteriovenous fistula (Yao et al.), 80
measurements, electromagnetic, technique of: notes regarding a potential source of error (Weissenhofer, Schmidt, and Schenk), 474
mesenteric, and small intestinal motility in dog (Zeigler, Barton, and Swan), 649
vessel invasion and lymph node metastasis: two factors affecting survival in breast cancer (Ruiz S. et al.), 185
viscosity, human, effect of surgical operation on (Litwin and Relihan), 323
Body and lung weight and lung water content in rats treated for hemorrhage with various fluids, changes in (Collins, Braitberg, and Butcher), 401
Bowel, small, obstructed, intraoperative decompression of (Wickstrom, Haglin, and Hitchcock), 212
Breast cancer, analytic critique of existing systems of staging for (Charlson and Feinstein), 579
Bronchial-tracheal secretion surface tensions, effects of fat-soluble anesthetic agents on (Stanley and Zikria), 386
Burn patient care, use of biopsies in (Pruitt and Foley), 887
trauma, acute, study of lymphocyte depletion and serum complement perturbations following (Farrell et al.), 697
wound eschar, in vitro evaluation of enzymatic debridement of (Silverstein et al.), 15
Bypass, venovenous: prolonged use of membrane oxygenator in air-breathing and hypoxic lambs (Hanson et al.), 284

C

Calcium infusions in conscious monkeys, dissociation of gastric acid output and plasma gastrin concentration after (Rosato et al.), 207
Calculi, biliary tract, residual, treated without reoperation, review of 220 cases of: eight-year study (Mazzariello), 299

Cancer and coronaries, lessons learned from—American Trauma Society (Morse), 806
mammary (Hedberg) (letter to editors), 161
of pancreas, regional resection of: new surgical approach (Fortner), 307
patient, delayed hypersensitivity reaction in: observations on sensitization by DNCB (Chakravorty et al.), 730
Cannula for maintaining long-term thoracic duct fistulas (Dedo), 791
Carcinoid tumors of appendix (Dent, Batsakis, and Lindenauer), 828
Carcinoma, colon, and inguinal hernia: presentation of series and analysis (Sannella), 434
of esophagus situated in cervicothoracic segment, primary pharyngogastrostomy for (Kakegawa, Tsuzuki, and Sasaki), 226
medullary, of thyroid gland (Dunn, Nishiyama, and Thompson), 848
metastatic, of liver by percutaneous selective hepatic artery infusion of 5-fluorouracil, treatment of (Tandon, Bunnell, and Cooper), 118
of pancreas, aspiration cytology in (Forsgren and Orell), 38
pancreatic, and regional resection (Hubbard) (letter to editors), 799; reply (Fortner), 799
(Drapanas) (editorial), 321
thyroid (Crocker), 671
Cardiac allografts, orthotopic, in presensitized canine recipients (Kondo et al.), 623
function during anoxia, protective effect of myocardial glycogen on (Hewitt et al.), 444
output in hemorrhagic shock, sequential changes in distribution of (Slater et al.), 714
Cardiovascular effects of arteriovenous shunt rewarming following experimental hypothermia (Gregory, Patton, and McFadden), 561
Care, intensive-, laboratory (Berger et al.) (editorial), 159
Catheter, needle, technique, jejunostomy by (Delany, Carnevale, and Garvey), 786
transducer, prolonged left ventricular pressure monitoring by (Bolooki), 97
venous, central, for parenteral hyperalimentation in infants, technique of insertion of (Shashikumar, Somers, and Leber), 557
Catheterization of superior vena cava (Bahn and Kennedy), 115
venous, selective, role of: adenoma in a fifth parathyroid gland (Monchik, Nelson, and Powell), 782
Cava, vena, superior catheterization of (Bahn and Kennedy), 115
Celiac artery, anatomic basis for respiratory variations in median arcuate ligament compression of (Reuter and Bernstein), 381
Cell, blood, aggregation, serotonin-induced, in dog, inhibition of (Pitzele, Sze, and Dobell), 416
tumors, germ, extragonadal (Johnson et al.), 85
Cervical incisions, transverse, evaluation of wound complications after neck dissection and composite resection utilizing (Doberneck), 261
Cervicothoracic segment, primary pharyngogastrostomy for carcinoma of esophagus situated in (Kakegawa, Tsuzuki, and Sasaki), 226
Child, Charles Gardner, III, M.D. (Harrison and Coon), 804
Cholesterol, dietary, on composition of human bile, effect of (DenBesten, Conner, and Bell), 266
Circadian variation in rejection of rat kidney allografts (Ratte et al.), 102
Circulation, exclusion of right ventricle from: hemodynamic observations (Puga and McGoon), 607
hepatic, after side-to-side portacaval shunt in dogs: velocity pattern in flow rate changes studied by ultrasonic velocimeter (Loisance et al.), 43
Circulatory support, pulsatile, analysis of pulse frequency as adrenergic excitant in (Harrison and Seaton), 868
Circumflex coronary artery and its branches, exposure of (Green), 66
Cirrhosis, hepatic, variceal hemorrhage, and portacaval shunts (Turcotte and Lambert), 810
Clinical hypothermia: lady with a past and some promise for the future (Swan), 736
Clostridium perfringens infection, experimental, in dogs treated with antiboitics, surgery, and hyperbaric oxygen, comparative study of (Demello, Haglin, and Hitchcock), 936
Closure, primary, technique of radical excision of pilonidal disease with (Casten, Tan, and Ayuyao), 109
wound, abdominal, monofilament, figure-of-8, through-and-through, with wound splints: elimination of evisceration in poor-risk wounds over 25 years (Dennis and Aka), 171
Coagulopathy, consumption, arteriovenous fistula and false aneurysm as cause of (Rhodes, Cox, and Silver), 535
Colon carcinoma and inguinal hernia: presentation of series and analysis (Sannella), 434
diseases, major, complicating renal transplantation (Misra et al.), 942
Coma, hepatic, and hepatorenal failure, simultaneous liver hemoperfusion and hemodialysis for treatment of (Abouna), 541
Community health center, surgeon's view of (Delany), 486
medical practice, relationship of current surgical residency training programs to (Fonkalsrud) (editorial), 795
Computer simulation model to study the clinical observability of ventilation and perfusion abnormalities in human shock states (Siegel and Farrell), 898
Congenital arteriovenous fistula, limb blood flow in (Yao et al.), 80
hepatic fibrosis: report of two new cases and review of literature (Sommerschild, Langmark, and Maurseth), 53
Conjugate, toxin, antibody-diphtheria, improved cytotoxicity with (Philpott, Bower, and Parker), 928
Conjugation pattern of 17-hydroxycorticosteroids, effect of surgical trauma on (Wise, Margraf, and Ballinger), 163

Consumption coagulopathy, arteriovenous fistula and false aneurysm as cause of (Rhodes, Cox, and Silver), 535
Containers, plastic, in-use testing of sterility in of intravenous solutions (Kundsin, Walter, and Scott), 778
Contrast media, angiographic: a historical résumé (Killen), 333
Coronary artery, circumflex, and its branches, exposure of (Green), 66
and cancer, lessons learned from—American Trauma Society (Morse), 806
Correction, statistical (Jones) (letter to editors), 162
Corticosteroid concentration in monkey bile, effect of ACTH on, as measured by competitive protein-binding analysis (Herman et al.), 74
Cortisol and cortisone, plasma, concentrations following postoperative adrenal steroid replacement (Newsome and Manalan), 429
Cortisone and cortisol, plasma, concentrations following postoperative adrenal steroid replacement (Newsome and Manalan), 429
Cytology, aspiration, in carcinoma of pancreas (Forsgren and Orell), 38
Cytotoxicity, selective, improved, with antibody-diphtheria toxin conjugate (Philpott, Bower, and Parker), 928

D

Dacron velour and venous patch grafts for arterial reconstruction, comparison of (Menon et al.), 423
Debridement, enzymatic, of burn wound eschar, in vitro evaluation of (Silverstein et al.), 15
Decompression, intestinal, technique for: sodium loss in intestinal obstruction (Grosz and Dennis), 168
intraoperative, of obstructed small bowel (Wickstrom, Haglin, and Hitchcock), 212
Denervation, sympathetic, limb arteriovenous shunting following (Delaney and Scarpino), 202
Diabetes, steroid, in renal transplant recipients: pathogenetic factors and prognosis (Ruiz S. et al.), 759
Dietary cholesterol on composition of human bile, effect of (DenBesten, Conner, and Bell), 266
Diphtheria-antibody toxin conjugate, improved selective cytotoxicity with (Philpott, Bower, and Parker), 913
Disease, colonic, major, complicating renal transplantation (Misra et al.), 942
ileal, or resection, and blind loop syndrome: current concepts of pathophysiology (Fromm), 639
pilonidal, with primary closure, technique of radical excision of (Casten, Tan, and Ayuyao), 109
venous, radionuclide venography for dynamic evaluation of (Barnes et al.), 706
Dissection and angiography, postmortem, of hypogastric artery in pelvic fractures (Huittinen and Slätis), 454
neck, and composite resection utilizing transverse cervical incisions, evaluation of wound complications after (Doberneck), 261
DNCB, observations on sensitization by: delayed hypersensitivity reaction in cancer patient (Chakravorty et al.), 730
Duct, bile, divisional, aberrant: surgical hazard (Pollack and Tabrisky), 234
strictures, surgical treatment of (Lindenauer), 875
thoracic, fistulas, long-term, cannula for maintaining (Dedo), 791
Duhamel procedure, complication of: septum reformation (Dudgeon, Coran, and Rosenkrantz), 274
Duodenal lesions, benign, duodenectomy with reimplantation of papilla into jejunum as treatment for (Kavlie, Dillard, and White), 230
ulcer, prospective randomized study of elective surgical treatment for: two- to ten-year follow-up study (Howard, Murphy, and Humphrey), 256
Duodenectomy with reimplantation of papilla into jejunum as treatment for benign duodenal lesions (Kavlie, Dillard, and White), 230
Dypridamole, urokinase, and pyridinolcarbamate in rat heart allografts, use of (Ono, Hattori, and Inokuchi), 128

E

E. coli endotoxin, comparison between systemic and portal injection of (Dinbar and Fonkalsrud), 176
Elastin layer, role of, and proteolytic enzyme perfusion, experimental arterial thrombosis formation in vivo by (Kabemba, Mayer, and Hammond), 438
Electromagnetic blood flow measurements, technique of: notes regarding a potential source of error (Weissenhofer, Schmidt, and Schenk), 474
Electron microscopy, scanning, to identify changes in luminal surface ultrastructure after exposure to implanted emboli, study using: experimental arterial embolism (Hamer), 500
Emboli, new intracaval filter permitting continued flow and resolution of (Greenfield et al.), 599
Embolism, arterial, experimental: study using scanning electron microscopy to identify changes in luminal surface ultrastructure after exposure to implanted emboli (Hamer), 500
peripheral, and shock during surgery of abdominal aorta, avoidance of (Imparato et al.), 68
Endotoxemia, hemorrhage, and hypoxia, hepatic ultrastructure in: emphasis on mitochondrial changes (White et al.), 525
Endotoxin, *E. coli*, comparison between systemic and portal injection of (Dinbar and Fonkalsrud), 176
in intact dogs, pulmonary vascular response to (Pennington, Hyman, and Jaques), 246
Enzymatic debridement of burn wound eschar, in vitro evaluation of (Silverstein et al.), 15
Enzyme perfusion, proteolytic, and role of elastin layer, experimental arterial thrombosis formation in vivo by (Kabemba, Mayer, and Hammond), 438

Eschar, wound, burn, in vitro evaluation of enzymatic debridement of (Silverstein et al.), 15
Esophagus situated in cervicothoracic segment, primary pharyngogastrostomy for (Kakegawa, Tsuzuki, and Sasaki), 226
Evisceration in poor-risk wounds over 25 years, elimination of: figure-of-8 through-and-through monofilament abdominal wound closure with wound splints (Dennis and Aka), 171
Excision, radical, of pilonidal disease with primary closure, technique of (Casten, Tan, and Ayuyao), 109
Extragonadal germ cell tumors (Johnson et al.), 85

F

Fat, body, muscle activity, and induced rat mammary tumors (Moore and Tittle), 329
soluble anesthetic agents on tracheal-bronchial secretion surface tensions, effects of (Stanley and Zikria), 386
Femoral angiography, percutaneous, surgical management of arterial occlusion following (Yellin and Shore), 772
Fibromuscular hyperplasia, peripheral, progressive, in infant: possible manifestation of rubella syndrome (Stewart et al.), 374
Fibrosis, hepatic, congenital: report of two new cases and review of literature (Sommerschild, Langmark, and Maurseth), 53
Films, plain, in anorectal malformations (Cremin) (letter to editors), 161
Filter, intracaval, new, permitting continued flow and resolution of emboli (Greenfield et al.), 599
Finochietto, Enrique and Ricardo: surgery, the ultimate devotion (Deysine and Uriburu), 490
Fistula, arteriovenous, congenital, limb blood flow in (Yao et al.), 80
and false aneurysm as cause of consumption coagulopathy (Rhodes, Cox, and Silver), 535
and standard Quinton-Scribner shunt have failed, applicable in cases where: new subcutaneous arteriovenous shunt (Buselmeier et al.), 512
duct, thoracic, long-term, cannula for maintaining (Dedo), 791
Flow, blood, limb, in congenital arteriovenous fistula (Yao et al.), 80
measurements, electromagnetic, technique of: notes regarding potential source of error (Weissenhofer, Schmidt, and Schenk), 468
mesenteric, and small intestinal motility in dog (Zeigler, Barton, and Swan), 649
continued, and resolution of emboli, new intracaval filter permitting (Greenfield et al.), 599
rate and velocity pattern changes studied by ultrasonic velocimeter: hepatic circulation after side-to-side portacaval shunt in dogs (Loisance et al.), 43
Fluid, hydrocele, on proteins of (Witte et al.), 347
5-Fluorouracil, treatment of metastatic carcinoma of liver by percutaneous selective hepatic artery infusion of (Tandon, Bunnell, and Cooper), 118
Foam, Antiseptic, Septisol, for hands of operating room personnel: effective antibacterial agent (Gravens et al.), 360
Fractures, pelvic, postmortem angiography and dissection of hypogastric artery (Huittinen and Slätis), 454
Function, myocardial, effects of oligemic hypotension on (Wilson, Gay, and Ebert), 657
ventricular, in intact animal, model for repeated evaluation of (Levitsky et al.), 468
Furosemide, enhancement of renal preservation by (Panijayanond et al.), 368

G

Gastric acid output and plasma gastrin concentration after calcium infusions in conscious monkeys, dissociation of (Rosato et al.), 207
mucosal barrier, effect of metabolic inhibitors on (Ritchie and Fischer), 614
Gastrin assay methods, questioning (Malmstrøm, Stadil, and Rehfeld) (letter to editors), 480; Reply (Jordan and Yip), 481
plasma, concentration and gastric acid output after calcium infusions in conscious monkeys, dissociation of (Rosato et al.), 207
secretin relationships in Zollinger-Ellison syndrome (Bradley et al.), 550
Gastroesophageal, human, high-pressure zone, effect of transabdominal vagotomy on (Mazur et al.), 818
Germ cell tumors, extragonadal (Johnson et al.), 85
Gland, parathyroid, fifth, adenoma in a: role of selective venous catheterization (Monchik, Nelson, and Powell), 782
thyroid, medullary carcinoma of (Dunn, Nishiyama, and Thompson), 848
Glycogen, myocardial, on cardiac function during anoxia, protective effect of (Hewitt et al.), 444
Grafts, Dacron velour and venous patch, for arterial reconstruction, comparison of (Menon et al.), 423
vein, aorticocoronary radiographic marker for (Pate and Richardson), 200

H

Hands of operating room personnel, Septisol Antiseptic Foam for: effective antibacterial agent (Gravens et al.), 360
ulnar artery aneurysms of (Gaylis and Kushlick), 478
Head injury, severe, respiratory insufficiency in patients with (Katsurada, Yamada, and Sugimoto), 191
Healing, wound, body weight, protein regeneration, and liver morphology, effects on: postoperative intravenous nutrition (Steiger et al.), 686
research, standards for (Hunt) (editorial), 153
Health-care, ambulatory, delivery and surgeon (Egdahl) (editorial), 637
center, community, surgeon's view of (Delany), 486
Heart allografts, rat, use of urokinase, pyridinolcarbamate, and dypiridamole in (Ono, Hattori, and Inokuchi), 128

Heart—Cont'd
rat, and human renal transplantation, heterotopic, experimental, immunosuppressive effect of large doses of intravenous prednisolone in (Bell et al.), 147
Hemodialysis and liver hemoperfusion, simultaneous, for treatment of hepatic coma and hepatorenal failure (Abouna), 541
Hemodynamic effects of adrenergic stimulation and blockade: venous occlusion in canine hindlimb (Wright et al.), 507
pulmonary, of lung thromboemboli in dogs (Woolverton and Hyman), 572
Hemodynamics of venous occlusion in canine hindlimb (Wright and Swan), 141
Hemoperfusion, liver, and hemodialysis, simultaneous, for treatment of hepatic coma and hepatorenal failure (Abouna), 541
Hemoperitoneum, massive, from rupture of benign hepatocellular adenoma (Davis, Schenken, and Zimmerman), 181
Hemorrhage, hypoxia, and endotoxemia, hepatic ultrastructure in: emphasis on mitochondrial changes (White et al.), 525
variceal, hepatic cirrhosis, and portacaval shunts (Turcotte and Lambert), 810
with various fluids, changes in lung and body weight and lung water content in rats treated for (Collins, Braitberg, and Butcher), 401
Hemorrhagic shock, experimental, role of acidosis in development of increased pulmonary vascular resistance and shock lung in (Kim and Shoemaker), 723
sequential changes in distribution of cardiac output in (Slater et al.), 714
Hepatectomized pigs, totally, new technique for preparing (Lempinen, Soyer, and Eiseman), 463
Hepatic artery infusion, selective, percutaneous, of 5-fluorouracil, treatment of metastatic carcinoma of liver by (Tandon, Bunnell, and Cooper), 118
circulation after side-to-side portacaval shunt in dogs: velocity pattern and flow rate changes studied by ultrasonic velocimeter (Loisance et al.), 43
cirrhosis, variceal hemorrhage, and portacaval shunts (Turcotte and Lambert), 810
coma and hepatorenal failure, simultaneous liver hemoperfusion and hemodialysis for treatment of (Abouna), 541
fibrosis, congenital: report of two new cases and review of literature (Sommerschild, Langmark, and Maurseth), 53
lobectomy, anatomical, in trauma to liver (Donovan, Michaelian, and Yellin), 833
ultrastructure in endotoxemia, hemorrhage, and hypoxia: emphasis on mitochondrial changes (White et al.), 525
Hepatocellular adenoma, benign, massive hemoperitoneum from rupture of (Davis, Schenken, and Zimmerman), 181
Hepatorenal failure and hepatic coma, simultaneous liver hemoperfusion and hemodialysis for treatment of (Abouna), 541
Hernia, inguinal, and colon carcinoma: presentation of series and analysis (Sannella), 434
Heterotopic rat heart and human renal transplantation, experimental, immunosuppressive effect of large doses of intravenous prednisolone in (Bell et al.), 147
Human bile, effect of dietary cholesterol on composition of (DenBesten, Conner, and Bell), 266
renal and rat heart transplantation, heterotopic, experimental, immunosuppressive effect of large doses of intravenous prednisolone (Bell et al.), 147
Hydrocele fluid, on proteins of (Witte et al.), 347
17-Hydroxycorticosteroids, effect of surgical trauma on conjugation pattern of (Wise, Margraf, and Ballinger), 163
Hyperalimentation, parenteral, in infants, technique of insertion of central venous catheter for (Shashikumar, Somers, and Leber), 557
Hyperacute rejection, techniques of in vivo plasma modification for teatment of (Shons et al.), 28
Hyperbaric oxygen, antibiotics, and surgery, comparative study of experimental *C. perfringens* infection in dogs (Demello, Haglin, and Hitchcock), 936
Hyperplasia, fibromuscular, peripheral, progressive, in infant; possible manifestation of rubella syndrome (Stewart et al.), 374
Hypersensitivity reaction, delayed, in cancer patient: observations on sensitization by DNCB (Chakravorty et al.), 730
Hypertension, renovascular, arteriosclerotic, renal revascularization for: prognostic implications of focal renal arterial vs. overt generalized arteriosclerosis (Ernst et al.), 859
Hypogastric artery in pelvic fractures, postmortem angiography and dissection of (Huittinen and Slätis), 454
ruptured aneurysms of (Wirthlin and Warshaw), 629
Hypotension, oligemic, on myocardial function, effects on (Wilson, Gay, and Ebert), 657
Hypothermia, clinical: lady with a past and some promise for the future (Swan), 736
experimental, cardiovascular effects of arteriovenous shunt rewarming following (Gregory, Patton, and McFadden), 561
Hypoxia, hemorrhage and endotoxemia, hepatic ultrastructure in: emphasis on mitochondrial changes (White et al.), 525
Hypoxic and air-breathing lambs, prolonged use of membrane oxygenator in: venovenous bypass (Hanson et al.), 284

I

Ileal resection, or disease, and blind loop syndrome: current concepts of pathophysiology (Fromm), 639
Immunology, tumor, note of caution regarding (Hill) (editorial), 797
Immunosuppressive effect of large doses of intravenous prednisolone in experimental heterotopic rat heart and human renal transplantation (Bell et al.), 147
Implanted emboli, study in using scanning electron microscopy to identify changes in luminal surface ultrastructure after exposure to: experimental arterial embolism (Hamer), 500

Incisions, cervical, transverse, evaluation of wound complications after neck dissection and composite resection utilizing (Doberneck), 261
Infrarenal abdominal aorta, paraplegia complicating resection of aneurysms of (Golden et al.), 91
Infusion, artery, hepatic, selective, percutaneous, of 5-fluorouracil, treatment of metastatic carcinoma of liver by (Tandon, Bunnell, and Cooper), 118
calcium, in conscious monkeys, dissociation of gastric acid output and plasma gastrin concentration after (Rosato et al.), 207
Inguinal hernia and colon carcinoma: presentation of series and analysis (Sannella), 434
Inhibitors, metabolic, on gastric mucosal barrier, effects of (Ritchie and Fischer), 614
Injection, systemic and portal, of *E. coli* endotoxin, comparison between (Dinbar and Fonkalsrud), 176
Injury, head, severe, respiratory insufficiency in patients with (Katsurada, Yamada, and Sugimoto), 191
Insufficiency, respiratory, in patients with severe head injury (Katsurada, Yamada, and Sugimoto), 191
Intensive-care laboratory (Berger et al.) (editorial), 159
Intestinal decompression, technique for: sodium loss in intestinal obstruction (Grosz and Dennis), 168
small, motility and mesenteric blood flow in dog (Zeigler, Barton, and Swan), 649
Intracaval filter, new, permitting continued flow and resolution of emboli (Greenfield et al.), 599
Intravenous nutrition, postoperative: effects on body weight, protein regeneration, wound healing, and liver morphology (Steiger et al.), 686
solutions in plastic containers, in-use testing of sterility of (Kundsin, Walter, and Scott), 778
Ionic transport, active and passive, during low-temperature liver preservation, persistence of (Lambotte), 8

J

Jejunostomy by needle catheter technique (Delany, Carnevale, and Garvey), 786
Jejunum as treatment for benign duodenal lesions, duodenectomy with reimplantation of papilla into (Kavlie, Dillard, and White), 230

K

Kidney allografts, rat, circadian variation in rejection of (Ratte et al.), 102

L

Laboratory, intensive-care (Berger et al.) (editorial), 159
Leiomyosarcoma of large arteries and veins (Kevorkian and Cento), 390
Lesions, duodenal, benign, duodenectomy with reimplantation of papilla into jejunum as treatment of (Kavalie, Dillard, and White), 230
Ligament, median arcuate, compression of celiac artery, anomatic basis for respiratory variation in (Reuter and Bernstein), 381
Limb arteriovenous shunting following sympathetic denervation (Delaney and Scarpino), 202
blood flow in congenital arteriovenous fistula (Yao et al.), 80
lower, inadvertent arterial stripping in: problems of management (Eger et al.), 23
Liver abscess, bacteroides (Futch, Zikria, and Neu), 59
anatomical hepatic lobectomy in trauma to (Donovan, Michaelian, and Yellin), 833
hemoperfusion and hemodialysis, simultaneous, for treatment of hepatic coma and hepatorenal failure (Abouna), 541
morphology, body weight, protein regeneration, and wound healing, effects on: postoperative intravenous nutrition (Steiger et al.), 686
by percutaneous selective hepatic artery infusion of 5-fluorouracil, treatment of metastatic carcinoma of (Tandon, Bunnell, and Cooper), 118
preservation, low-temperature, persistence of active and passive ionic transport during (Lambotte), 8
Lobectomy, hepatic, anatomical, in trauma to liver (Donovan, Michaelian, and Yellin), 833
Luminal surface ultrastructure after exposure to implanted emboli, study using scanning electron microscopy to identify changes in: experimental arterial embolism (Hamer), 500
Lung and body weight and lung water content in rats treated for hemorrhage with various fluids, changes in (Collins, Braitberg, and Butcher), 401
shock, and increased pulmonary vascular resistance in experimental hemorrhagic shock, role of acidosis in development of (Kim and Shoemaker), 723
thromboemboli in dogs, pulmonary hemodynamic effects of (Woolverton and Hyman), 572
Lymph node metastasis and blood vessel invasion: two factors affecting survival in breast cancer (Ruiz S. et al.), 185
Lymphocyte depletion and serum complement perturbations following acute burn trauma, study of (Farrell et al.), 697

M

Mammary cancer (Hedberg) (letter to editors), 161
tumors, rat, induced, muscle activity, and body fat (Moore and Tittle), 329
Management, conservative, of appendix mass (Thomas), 677
and presentation of new technique: pancreatic trauma (Owens and Wolfman), 881
problems of: inadvertent arterial stripping in lower limb (Eger et al.), 23
of starch peritonitis without unnecessary second operation (Warshaw), 681
surgical, of arterial occlusion following percutaneous femoral angiography (Yellin and Shore), 722

Mass, appendix, conservative management of (Thomas), 677
Median arcuate ligament compression of celiac artery, anatomic basis for respiratory variation in (Reuter and Bernstein), 381
Medical practice, community, relationship of current surgical residency training programs to (Fonkalsrud) (editorial), 795
Medullary carcinoma of thyroid gland (Dunn, Nishiyama, and Thompson), 848
Membrane oxygenator in air-breathing and hypoxic lambs, prolonged use of: venovenous bypass (Hanson et al.), 284
Mesenteric blood flow and small intestinal motility in dog (Zeigler, Barton, and Swan), 649
Metabolic inhibitors on gastric mucosal barrier, effect of (Ritchie and Fischer), 614
Metastasis, lymph node, and blood vessel invasion: two factors affecting survival in breast cancer (Ruiz S. et al.), 185
Metastatic carcinoma of liver by percutaneous selective hepatic artery infusion of 5-fluorouracil, treatment of (Tandon, Bunnell, and Cooper), 118
Microscopy, electron, scanning, to identify changes in luminal surface ultrastructure after exposure to implanted emboli, study using: experimental arterial embolism (Hamer), 500
Microvascular surgery, thrombus formation in: experimental study of effects of surgical trauma (Acland), 766
Mitochondrial changes, emphasis on: hepatic ultrastructure in endotoxemia, hemorrhage, and hypoxia (White et al.), 525
Monitoring, pressure, prolonged left ventricular, by catheter transducer (Bolooki), 97
Monofilament abdominal wound closure, figure-of-8 through-and-through, with wound splints: elimination of evisceration in poor-risk wounds over 25 years (Dennis and Aka), 171
Morphology, liver, body weight, protein regeneration, and wound healing, effects on: postoperative intravenous nutrition (Steiger et al.), 686
Mucosal barrier, gastric, effect of metabolic inhibitors on (Ritchie and Fischer), 614
Muscle activity, body fat, and induced rat mammary tumors (Moore and Tittle), 329
Mustard's operation in infants (Kirklin) (letter to editors), 800; reply (Stansel), 802
less than one year of age, experience with: emphasis on late complications including patch stenosis (Berman, Talner, and Stansel), 133
Myelolipoma, adrenal (Olsson et al.), 665
Myocardial function, effects of oligemic hypotension on (Wilson, Gay, and Ebert), 657
glycogen on cardiac function during anoxia, protective effect of (Hewitt et al.), 444
Myxoma, atrial, surgical considerations of (Adebonojo et al.), 220

N

Neck dissection and composite resection utilizing transverse cervical incisions, evaluation of wound complications after (Doberneck), 261
Needle catheter technique, jejunostomy by (Delany, Carnevale, and Garvey), 786
Node, lymph, metastasis and blood vessel invasion: two factors affecting survival in breast cancer (Ruiz S. et al.), 185
Nutrition, intravenous, postoperative: effects on body weight, protein regeneration, wound healing, and liver morphology (Steiger et al.), 686

O

Obstruction, arterial, small vessel occlusion in extremity after various periods of: experimental study (Dunant and Edwards), 240
intestinal, sodium loss in: technique for intestinal decompression (Grosz and Dennis), 168
Occlusion, arterial, following percutaneous femoral angiography, surgical management of (Yellin and Shore), 772
small vessel, in extremity after various periods of arterial obstruction: experimental study (Dunant and Edwards), 240
venous, in canine hindlimb, hemodynamics of (Wright and Swan), 141
hemodynamic effects of adrenergic stimulation and blockade (Wright et al.), 507
Oligemic hypotension on myocardial function, effects of (Wilson, Gay, and Ebert), 657
Operating room personnel, Septisol Antiseptic Foam for hands of: effective antibacterial agent (Gravens et al.), 360
Operation, Mustard's, in infants (Kirklin) (letter to editors), 800; reply (Stansel), 802
less than one year of age, experience with: emphasis on late complications including patch stenosis (Berman, Talner, and Stansel), 133
surgical, on human blood viscosity, effect of (Litwin and Relihan), 323
Orthotopic cardiac allografts in presensitized canine recipients (Kondo et al.), 623
Oxygen hyperbaric, antibiotics, and surgery, comparative study of experimental *Clostridium perfringens* infection in dogs with (Demello, Haglin, and Hitchcock), 936
Oxygenator, membrane, in air-breathing and hypoxic lambs, prolonged use of: venovenous bypass (Hanson et al.), 284

P

Pancreas, aspiration cytology in carcinoma of (Forsgren and Orell), 38
regional resection of cancer: new surgical approach (Fortner), 307
Pancreatic carcinoma and regional resection (Hubbard) (letter to editors), 799; reply (Fortner), 799
for (Drapanas) (editorial), 321
trauma: management and presentation of new technique (Owens and Wolfman), 881
Papilla into jejunum as treatment for benign duodenal lesions, duodenectomy with reimplantation of (Kavlie, Dillard, and White), 230
Paraplegia complicating resection of aneurysms of infrarenal abdominal aorta (Golden et al.), 91

Parathyroid gland, fifth, adenoma in a: role of selective venous catheterization (Monchik, Nelson, and Powell), 782
Parenteral hyperalimentation in infants, technique of insertion of central venous catheter for (Shashikumar, Somers, and Leber), 557
Patch stenosis, emphasis on late complications including: experience with Mustard's operation in infants less than one year of age (Berman, Talner, and Stansel), 133
venous, Dacron velour grafts for arterial reconstruction, comparison of (Menon et al.), 423
Pathogenetic factors and prognosis: steroid diabetes in renal transplant recipients (Ruiz S. et al.), 759
Pathophysiology, current concepts of: ileal resection, or disease, and blind loop syndrome (Fromm), 639
Pelvic fractures, postmortem angiography and dissection of hypogastric artery (Huittinen and Slätis), 454
Perfusion, enzyme, proteolytic, and role of elastin layer, experimental arterial thrombosis formation in vivo by (Kabema, Mayer, and Hammond), 438
and ventilation abnormalities in human shock states, computer simulation model to study the clinical observability of (Siegel and Farrell), 898
Peritonitis, starch, without unnecessary second operation (Warshaw), 681
Pharyngogastrostomy, primary, for carcinoma of esophagus situated in cervicothoracic segment (Kakegawa, Tsuzuki, and Sasaki), 226
Phlebographic study: deep vein thrombosis in surgical patients (Smyrnis and Kolios), 692
Pilonidal disease with primary closure, technique of radical excision of (Casten, Tan, and Ayuyao), 109
Plain films in anorectal malformations (Cremin) (letter to editors), 161
Plasma cortisol and cortisone concentrations following postoperative adrenal steroid replacement (Newsome and Manalan), 429
gastrin concentration and gastric acid output after calcium infusions in conscious monkeys, dissociation of (Rosato et al.), 207
modification, in vivo, for treatment of hyperacute rejection, techniques of (Shons et al.), 28
Portacaval shunt, side-to-side, in dogs, hepatic circulation after: velocity pattern and flow rate changes studied by ultrasonic velocimeter (Loisance et al.), 43
variceal hemorrhage, and hepatic cirrhosis (Turcotte and Lambert), 810
Prednisolone, intravenous, in experimental heterotopic rat heart and human renal transplantation, immunosuppressive effect of large doses of (Bell et al.), 147
Preservation, liver, low-temperature, persistence of active and passive ionic transport during (Lambotte), 8
renal, by furosemide, enhancement of (Panijayanond et al.), 368
Pressure monitoring, prolonged left ventricular, by catheter transducer (Bolooki), 97
Proteins of hydrocele fluid, on the (Witte et al.), 347
regeneration, body weight, wound healing, and liver morphology, effects on: postoperative intravenous nutrition (Steiger et al.), 686
Protein-binding analysis, effect of ACTH on corticosteroid concentration in monkey bile, as measured by (Herman et al.), 74
Programs, training, residency, surgical, current, to community medical practice, relationship of (Fonkalsrud) (editorial), 795
Proteolytic enzyme perfusion and role of elastin layer, experimental arterial thrombosis formation in vivo by (Kabemba, Mayer, and Hammond), 438
Pulmonary hemodynamic effects of lung thromboemboli in dogs (Woolverton and Hyman), 572
valvular incompetence in growing animals (Michl and Shumacker), 412
vascular resistance, increased, and shock lung in experimental hemorrhagic shock, role of acidosis in development of (Kim and Shoemaker), 714
response to endotoxin in intact dogs (Pennington, Hyman, and Jaques), 246
Pulsatile circulatory support, analysis of pulse frequency as adrenergic excitant in (Harrison and Seaton), 868
Pulse frequency as adrenergic excitant in pulsatile circulatory support, analysis of (Harrison and Seaton), 868
Pyridinolcarbamate, dypiridamole, and urokinase in rat heart allografts, use of (Ono, Hattori, and Inokuchi), 128

Q

Quinton-Scribner shunt, standard, and arteriovenous fistula have failed, applicable in cases where: new subcutaneous arteriovenous shunt (Buselmeier et al.), 512

R

Radical excision of pilonidal disease with primary closure, technique of (Casten, Tan, and Ayuyao), 109
Radiographic marker for aorticocoronary vein grafts (Pate and Richardson), 200
Radionuclide venography for rapid dynamic evaluation of venous disease (Barnes et al.), 706
Reaction, hypersensitivity, delayed in cancer patient: observations on sensitization by DNCB (Chakravorty et al.), 730
Reconstruction, arterial, comparison of Dacron velour and venous patch grafts for (Menton et al.), 423
Reflux, bile, in experimental stress ulcer (Braun et al.), 521
Regeneration, protein, body weight, wound healing, and liver morphology, effects on: postoperative intravenous nutrition (Steiger et al.), 686
Reimplantation of papilla into jejunum as treatment for benign duodenal lesions, duodenectomy with (Kavlie, Dillard, and White), 230

Rejection, hyperacute, techniques of in vivo plasma modification for treatment of (Shons et al.), 28
of rat kidney allografts, circadian variation in (Ratte et al.), 102
Renal, human, and rat heart transplantation, heterotopic, experimental, immunosuppressive effect of large doses of intravenous prednisolone (Bell et al.), 147
preservation by furosemide, enhancement of (Panijayanond et al.), 368
revascularization for arteriosclerotic renovascular hypertension: prognostic implications of focal renal arterial vs. overt generalized arteriosclerosis (Ernst et al.), 859
transplant recipients, steroid diabetes in: pathogenetic factors and prognosis (Ruiz S. et al.), 759
second, in children (Fine et al.), 1
transplantation, major colonic diseases complicating (Misra et al.), 942
Renovascular hypertension, arteriosclerotic, renal revascularization for: prognostic implications of focal renal arterial vs. overt generalized arteriosclerosis (Ernst et al.), 859
Revascularization, renal, for arteriosclerotic renovascular hypertension: prognostic implications of focal renal arterial vs. overt generalized arteriosclerosis (Ernst et al.), 859
Research, wound healing, standards for (Hunt) (editorial), 153
Resection of aneurysms of infrarenal abdominal aorta, paraplegia complicating (Golden et al.), 91
composite, and neck dissection utilizing transverse cervical incisions, evaluation of wound complications after (Doberneck), 261
ileal, or disease, and blind loop syndrome: current concepts of pathophysiology (Fromm), 639
regional, and pancreatic carcinoma (Hubbard) (letter to editors), 799; reply (Fortner), 799
(Drapanas) (editorial), 321
new surgical approach (Fortner), 307
Residency training programs, surgical, current, to community medical practice, relationship of (Fonkalsrud) (editorial), 795
Respiratory insufficiency in patients with severe head injury (Katsurada, Yamada, and Sugimoto), 191
variation in median arcuate ligament compression of celiac artery, anatomic basis for (Reuter and Bernstein), 381
Rewarming, shunt, arteriovenous, following experimental hypothermia, cardiovascular effects of (Gregory, Patton, and McFadden), 561
Rubella syndrome, possible manifestation of: progressive peripheral fibromuscular hyperplasia in infant (Stewart et al.), 374
Rupture of benign hepatocellular adenoma, massive hemoperitoneum from (Davis, Schenken, and Zimmerman), 181

S

Secretin-gastrin relationships in Zollinger-Ellison syndrome (Bradley et al.), 550
Secretion surface tensions, tracheal-bronchial, effects of fat-soluble anesthetic agents on (Stanley and Zikria), 386
Sensitization by DNCB, observations on: delayed hypersensitivity reaction in cancer patient (Chakravorty et al.), 730
Septisol Antiseptic Foam for hands of operating room personnel: effective antibacterial agent (Gravens et al.), 360
Septum reformation: complication of Duhamel procedure (Dudgeon, Coran, and Rosenkrantz), 274
Serotonin-induced blood cell aggregation in dog, inhibition of (Pitzele, Sze, and Dobell), 416
Serum complement perturbations and lymphocyte depletion following acute burn trauma, study of (Farrell et al.), 697
Shock, hemorrhagic, experimental, role of acidosis in development of increased pulmonary vascular resistance and shock lung in (Kim and Shoemaker), 723
sequential changes in distribution of cardiac output in (Slater et al.), 714
lung and increased pulmonary vascular resistance in experimental hemorrhagic shock, role of acidosis in development of (Kim and Shoemaker), 723
and peripheral embolism during surgery of abdominal aorta, avoidance of (Imparato et al.), 68
states, human, computer simulation model to study clinical observability of ventilation and perfusion abnormalities in (Siegel and Farrell), 898
Shunt, arteriovenous, limb, following sympathetic denervation (Delaney and Scarpino), 202
rewarming following experimental hypothermia, cardiovascular effects of (Gregory, Patton, and McFadden), 561
subcutaneous, new: applicable in cases where the standard Quinton-Scribner shunt and arteriovenous fistula have failed (Buselmeier et al.), 512
portacaval, side-to-side, in dogs, hepatic circulation after: velocity pattern and flow rate changes studied by ultrasonic velocimeter (Loisance et al.), 43
variceal hemorrhage, and hepatic cirrhosis (Turcotte and Lambert), 810
Sodium loss in intestinal obstruction: technique for intestinal decompression (Grosz and Dennis), 168
Solutions, intravenous, in plastic containers, in-use testing of sterility of (Kundsin, Walter, and Scott), 778
Splints, wound, figure-of-8 through-and-through monofilament abdominal wound closure with: elimination of evisceration in poor-risk wounds over 25 years (Dennis and Aka), 171
Staging for breast cancer, analytic critique of existing systems of (Charlson and Feinstein), 579
Starch peritonitis without unnecessary second operation, management of (Warshaw), 681
Statistical correction (Jones) (letter to editors), 162

Stenosis, patch, emphasis on late complications including: experience with Mustard's operation in infants less than one year of age (Berman, Talner, and Stansel), 133
Sterility of intravenous solutions in plastic containers, in-use testing of (Kundsin, Walter, and Scott), 778
Steroid diabetes in renal transplant recipients: pathogenetic factors and prognosis (Ruiz S. et al.), 759
replacement, adrenal, postoperative, plasma cortisol and cortisone concentrations following (Newsome and Manalan), 429
Stress ulcer, experimental, bile reflux in (Braun et al.), 521
Stricture, duct, bile, surgical treatment of (Lindenauer), 875
at ureteroneocystostomy, technique for treating (Marchioro and Tremann), 634
Subcutaneous arteriovenous shunt, new: applicable in cases where the standard Quinton-Scribner shunt and arteriovenous fistula have failed (Buselmeier et al.), 512
Surgeon and ambulatory health-care delivery (Egdahl) (editorial), 637
cowardly, affluence and (Becker) (editorial), 155
view of community health center (Delany), 486
Surgery of abdominal aorta, avoidance of shock and peripheral embolism during (Imparato et al.), 68
antibiotics, and hyperbaric oxygen, comparative study of experimental *Clostridium perfringens* infection in dogs with (Demello, Haglin, and Hitchcock), 936
microvascular, thrombus formation in: experimental study of effects of surgical trauma (Acland), 766
the ultimate devotion: Enrique and Ricardo Finochietto (Deysine and Uriburu), 490
Surgical approach, new: regional resection of cancer of pancreas (Fortner), 307
care, ambulatory: basic concept and review of 1,000 patients (Davis), 483
considerations of atrial myxoma (Adebonojo et al.), 220
hazard: aberrant divisional bile duct (Pollack and Tabrisky), 234
management of arterial occlusion following percutaneous femoral angiography (Yellin and Shore), 772
operation on human blood viscosity, effect of (Litwin and Relihan), 323
patients, deep vein thrombosis in: phlebographic study (Smyrnis and Kolios), 692
residency training programs, current, to community medical practice, relationship of (Fonkalsrud) (editorial), 795
trauma on conjugation pattern of 17-hydroxycorticosteroids, effect of (Wise, Margraf, and Ballinger), 163
treatment of bile duct strictures (Lindenauer), 875
elective, for duodenal ulcer, prospective randomized study of: two- to ten-year follow-up study (Howard, Murphy, and Humphrey), 256
Sutures with silver, antibacterial effect of treating (Gravens et al.), 122
Sympathetic denervation, limb arteriovenous shunting following (Delaney and Scarpino), 202
Syndrome, blind loop, and ileal resection, or disease: current concepts of pathophysiology (Fromm), 639
rubella, possible manifestation of: progressive peripheral fibromuscular hyperplasia in infant (Stewart et al.), 374
Zollinger-Ellison, secretin-gastrin relationships in (Bradley et al.), 550
Systems of staging for breast cancer, analytic critique of (Charlson and Feinstein), 579

T

Technetium-99m, visualization of isolated retained antrum by using (Safaie-Schirazi et al.), 278
Technique of electromagnetic blood flow measurements: notes regarding potential source of error (Weissenhofer, Schmidt, and Schenk), 474
of insertion of central venous catheter for parenteral hyperalimentation in infants (Shashikumar, Somers, and Leber), 557
for intestinal decompression: sodium loss in intestinal obstruction (Grosz and Dennis), 168
needle catheter, jejunostomy by (Delany, Carnevale, and Garvey), 786
new, management and presentation of: pancreatic trauma (Owens and Wolfman), 881
for preparing totally hepatectomized pigs (Lempinen, Soyer, and Eiseman), 463
of radical excision of pilonidal disease with primary closure (Casten, Tan, and Ayuyao), 109
of thyroidectomy, continuing development of (Thompson, Olsen, and Hoffman), 913
for treating stricture at ureteroneocystostomy (Marchioro and Tremann), 634
of in vivo plasma modification for the treatment of hyperacute rejection (Shons et al.), 28
Testing, in-use, of sterility of intravenous solutions in plastic containers (Kundsin, Walter, and Scott), 778
Thoracic duct fistulas, long-term, cannula for maintaining (Dedo), 791
Thromboemboli, lung, in dogs, pulmonary hemodynamic effects of (Woolverton and Hyman), 572
Thromboembolism, venous, recurrence of (Coon and Willis), 823
Thrombosis formation, arterial, experimental, in vivo by proteolytic enzyme perfusion and role of elastin layer (Kabemba, Mayer, and Hammond), 438
vein, deep, in surgical patients: phlebographic study (Smyrnis and Kolios), 692
Thrombus formation in microvascular surgery: experimental study of effects of surgical trauma (Acland), 766
Thyroid carcinoma (Crocker), 671
gland, medullary carcinoma of (Dunn, Nishiyama, and Thompson), 848
Thyroidectomy, continuing development of technique of (Thompson, Olsen, and Hoffman), 913

Toxin conjugate, antibody-diphtheria, improved selective cytotoxicity with (Philpott, Bower, and Parker), 928
Tracheal-bronchial secretion surface tensions, effects of fat-soluble anesthetic agents on (Stanley and Zikria), 386
Tract, biliary, calculi, residual, treated without reoperation, review of 220 cases of: eight-year study (Mazzariello), 299
Training programs, residency, surgical, current, to community medical practice, relationship of (Fonkalsrud) (editorial), 795
Transabdominal vagotomy on human gastroesophageal high-pressure zone, effect of (Mazur et al.), 818
Transducer, catheter, prolonged left ventricular pressure monitoring by (Bolooki), 97
Transplant, renal, recipients, steroid diabetes in: pathogenetic factors and prognosis (Ruiz S. et al.), 759
second, in children (Fine et al.), 1
Transplantation, renal, human, and rat heart, heterotopic, experimental, immunosuppressive effect of large doses of intravenous prednisolone in (Bell et al.), 147
major colonic diseases complicating (Misra et al.), 942
Transport, ionic, active and passive, during low-temperature liver preservation, persistence of (Lambotte), 8
Trauma, burn, acute, study of lymphocyte depletion and serum complement perturbations following (Farrell et al.), 697
to liver, anatomical hepatic lobectomy in (Donovan, Michaelian, and Yellin), 833
pancreatic: management and presentation of new technique (Owens and Wolfman), 881
Society, American—lessons learned from cancer and coronaries (Morse), 806
surgical, on conjugation pattern of 17-hydroxycorticosteroids, effect of (Wise, Margraf, and Ballinger), 163
experimental study of effect of: thrombus formation in microvascular surgery (Acland), 766
Treating stricture at ureteroneocystostomy, technique for (Marchioro and Tremann), 634
sutures with silver, antibacterial effect of (Gravens et al.), 122
Treatment for benign duodenal lesions, duodenectomy with reimplantation of papilla into jejunum as (Kavlie, Dillard, and White), 230
of hepatic coma and hepatorenal failure, simultaneous liver hemoperfusion and hemodialysis for (Abouna), 541
of hyperacute rejection, techniques of in vivo plasma modification for (Shons et al.), 28
of metastatic carcinoma of liver by percutaneous selective hepatic artery infusion of 5-fluorouracil (Tandon, Bunnell, and Cooper), 118
surgical, of bile duct strictures (Lindenauer), 875
elective, for duodenal ulcer, prospective randomized study of: two- to ten-year follow-up study (Howard, Murphy, and Humphrey), 256
Tumor(s), carcinoid, of appendix (Dent, Batsakis, and Lindenauer), 828
cell, germ, extragonadal (Johnson et al.), 85
immunology, note of caution regarding (Hill) (editorial), 797
mammary, rat, induced, muscle activity, and body fat (Moore and Tittle), 329

U

Ulcer, duodenal, prospective randomized study of elective surgical treatment for: two- to ten-year follow-up study (Howard, Murphy, and Humphrey), 256
stress, experimental, bile reflux in (Braun et al.), 521
Ulnar artery aneurysms of hand (Gaylis and Kushlick), 478
Ultrasonic velocimeter, velocity pattern and flow rate changes studied by: hepatic circulation after side-to-side portacaval shunt in dogs (Loisance et al.), 43
Ultrastructure, hepatic, in endotoxemia, hemorrhage, and hypoxia: emphasis on mitochondrial changes (White et al.), 525
luminal surface, after exposure to implanted emboli, study using scanning electron microscopy to identify changes in: experimental arterial embolism (Hamer), 500
Ureteroneocystostomy, technique for treating stricture at (Marchioro and Tremann), 634
Urokinase, pyridinolcarbamate, and dypiridamole in rat heart allografts, use of (Ono, Hattori, and Inokuchi), 128

V

Vagotomy, transabdominal, on human gastroesophageal high-pressure zone, effect of (Mazur et al.), 818
Valvular incompetence, pulmonary, in growing animals (Michl and Shumacker), 412
Variceal hemorrhage, hepatic cirrhosis, and portacaval shunts (Turcotte and Lambert), 810
Vascular resistance, pulmonary, increased, and shock lung in experimental hemorrhagic shock, role of acidosis in development of (Kim and Shoemaker), 723
response, pulmonary, to endotoxin in intact dogs (Pennington, Hyman, and Jaques), 246
Vein(s) and arteries, large, leiomyosarcoma of (Kevorkian and Cento), 390
deep, thrombosis in surgical patients: phlebographic study (Smyrnis and Kolios), 692
grafts, aorticocoronary, radiographic marker for (Pate and Richardson), 200
Velocimeter, ultrasonic, velocity pattern and flow rate changes studied by: hepatic circulation after side-to-side portacaval shunt in dogs (Loisance et al.), 43
Velocity pattern and flow rate changes studied by ultrasonic velocimeter: hepatic circulation after side-to-side portacaval shunt in dogs (Loisance et al.), 43
Vena cava, superior, catheterization of (Bahn and Kennedy), 115

Venography, radionuclide, for rapid dynamic evaluation of venous disease (Barnes et al.), 706
Venous catheter, central, for parenteral hyperalimentation in infants, technique of insertion of (Shashikumar, Somers, and Leber), 557
catneterization, selective, role of: adenoma in a fifth parathyroid gland (Monchik, Nelson, and Powell), 782
disease, radionuclide venography for dynamic evaluation of (Barnes et al), 706
occlusion in canine hindlimb, hemodynamics of (Wright and Swan), 141
hemodynamic effects of adrenergic stimulation and blockade (Wright et al.), 507
patch and Dacron velour grafts for arterial reconstruction, comparison of (Menon et al.), 423
thromboembolism, recurrence of (Coon and Willis), 823
Venovenous bypass: prolonged use of membrane oxygenator in air-breathing and hypoxic lambs (Hanson et al.), 284
Ventilation and perfusion abnormalities in human shock states, computer simulation model to study the clinical observability of (Siegel and Farrell), 898
Ventricle, right, from circulation, exclusion of: hemodynamic observations (Puga and McGoon), 607
Ventricular function in intact animal, model for repeated evaluation of (Levitsky et al.), 468
left, pressure monitoring, prolonged, by catheter transducer (Bolooki), 97
Vessel, blood, invasion and lymph node metastasis: two factors affecting survival in breast cancer (Ruiz S. et al.), 185
Vessel—Cont'd
small, occlusion in extremity after various periods of arterial obstruction: experimental study (Dunant and Edwards), 240

W

Water content, lung, and lung and body weight in rats treated for hemorrhage with various fluids, changes in (Collins, Braitberg, and Butcher), 401
Weight, body, protein regeneration, wound healing, and liver morphology, effects on: postoperative intravenous nutrition (Steiger et al.), 686
Wound, burn, eschar, in vitro evaluation of enzymatic debridement of (Silverstein et al.), 15
closure, abdominal, monofilament, figure-of-8 through-and-through, with wound splints: elimination of evisceration in poor-risk wounds over 25 years (Dennis and Aka), 171
complications after neck dissection and composite resection utilizing transverse cervical incisions, evaluation of (Doberneck), 261
healing, body weight, protein regeneration, and liver morphology, effects on: postoperative intravenous nutrition (Steiger et al.), 686
research, standards for (Hunt) (editorial), 153

Z

Zollinger-Ellison syndrome, secretin-gastrin relationships in (Bradley et al.), 550

SUBJECT INDEX*

A

Abdominal aortic aneurysmectomy in 17-year-old patient with Ehlers-Danlos syndrome: case report and review of literature (Burnett et al.), 617
aneurysms, mesenteric panniculitis presenting as (Gaylis, Isaacson, and Kaplan), 626
mass, unusual cause for: rectal duplication (Jewell, Miller, and Ehrlich), 783
retention sutures, false aneurysm of inferior epigastric artery as complication of (Ello and Nunn), 460
Academic surgeons, is HMO surgical practice appropriate for? (Wright et al.), 41
surgery versus private practice: young surgeon's dilemma (Civetta) (editorial), 634
Academia, private surgeon looks at (Johnston), 505
Acid(s), fatty, free, in diabetic patients, heparin-induced elevation of (Kongtahworn et al.), 30
gastric, secretion, bile-induced, effect of antral acidification on (Nahrwold, Rose, and Kaminiski), 315
patterns, serum bile, and response to cholestyramine, diagnosis by: extrahepatic biliary atresia (Morrissey and Javitt), 116
Acidification, antral, on bile-induced gastric acid secretion, effect of (Nahrwold, Rose, and Kaminiski), 321
Adenosine 3′,5′-monophosphate metabolism in liver in experimental hemorrhagic shock (Rutenburg et al.), 660
Adrenalectomized primate, altered insulin and glucose metabolism produced by epinephrine during hemorrhagic shock in (Hiebert et al.), 223
Adrenal-pituitary responsiveness in surgical patients on acute and chronic corticosteroid therapy: plasma corticosterone assay (Newsome), 204
Adrenergic, alpha-, blockade, regional, and pulmonary pressor response to hypoxia (Badder, Magill, and Gump), 555
blocking agent in childhood pheochromocytoma (Gupta et al.), 545
beta-, receptor stimulant (isoproterenol) on pancreatic exocrine secretion, effects of (Rudick et al.), 338
Adventitial cysts, mucinous, of popliteal artery in 11-year-old girl (DeLaurentis et al.), 456
Age on prognosis after arterial surgery for atherosclerosis of lower limb, influence of (Bouhoutsos and Martin), 637
Akinesis of left ventricle, chronic heart failure secondary to: experimental study (Lloyd-Jones et al.), 607
Albumin kinetics in patients with chronic thoracic duct fistulas (McNeel, Townsend, and Fish), 344
Allografts, renal, canine, prospective in vitro prediction of enhancement of (Hattler et al.), 163
recipients, planned preimmunization of (Newton and Anderson), 430
Alpha-adrenergic blockade, regional, and pulmonary pressor response to hypoxia (Badder, Magill, and Gump), 555
blocking agent in childhood pheochromocytoma (Gupta et al.), 545
Anastomosis, cava–pulmonary artery, long-term evaluation of (Mathur and Glenn), 899
ureter–pancreatic duct, for exocrine drainage, clinical segmental pancreatic transplantation with (Gliedman et al.), 171
Anatomical and physiological determinants of blood flow through aortocoronary vein bypass grafts (Stinson, Olinger, and Glancy), 390
Anesthesia, fatal tumor embolism during examination under (Arthur et al.), 466
and surgery in patients with chronic bronchitis and chronic obstructive pulmonary disease, risk of (Tarhan et al.), 720
Aneurysm(s), aortic, abdominal, mesenteric panniculitis presenting as (Gaylis, Isaacson, and Kaplan), 626
false, of inferior epigastric artery as complication of abdominal retention sutures (Ello and Nunn), 460
femoral, arteriosclerotic, surgical management of (Cutler and Darling), 764
Aneurysmal dilatation, stenosis, and late graft expansion, characteristics of: fate of 100 aortorenal vein grafts (Stanley, Ernst, and Fry), 931
Aneurysmectomy, aortic, abdominal, in 17-year-old patient with Ehlers-Danlos syndrome: case report and review of literature (Burnett et al.), 617
Angiographic criteria for successful tibial arterial reconstructions (Imparato et al.), 830
Antibacterial function, neutrophil, stimulated nitroblue tetrazolium test to assess: prediction of wound sepsis in burned patients (Curreri et al.), 6
Antibody-enzyme conjugate, selective iodination and cytotoxicity of tumor cells with (Philpott, Bower, and Parker), 51
transplantation, humoral, on arterial intima of rabbits, effects of (O'Connell and Mowbray), 145
Anticoagulant drugs in vascular thrombosis, utility of: electron microscopic and biophysical study (Sawyer et al.), 263
Antigenic stimulus in human transplantation (Kahan et al.), 153
Antiphagocytosis—new variable in pathophysiology of tissue infection (Burleson), 14
Antral acidification on bile-induced gastric acid secretion, effect of (Nahrwold, Rose, and Kaminiski), 315
Antrectomy or with pyloroplasty on food-stimulated gastrin values in patients with duodenal ulcer, effect of truncal vagotomy with (Becker, Reeder, and Thompson), 580
Aortic aneurysmectomy, abdominal, in 17-year-old patient with Ehlers-Danlos syndrome: case report and review of literature (Burnett et al.), 617
aneurysms, abdominal, mesenteric panniculitis presenting as (Gaylis, Isaacson, and Kaplan), 626

*July, pp. 1-162; August, pp. 163-314; September, pp. 315-470; October, pp. 471-636; November, pp. 637-796; December, pp. 797-1006.

Aortic—Cont'd
intra-, balloon, in human septic shock with associated coronary artery disease, use of diastolic augmentation with (Berger et al.), 601
Aortocoronary vein bypass grafts, anatomical and physiological determinants of blood flow through (Stinson, Olinger, and Glancy), 390
Aortorenal vein grafts, 100, fate of: characteristics of late graft expansion, aneurysmal dilatation, and stenosis (Stanley, Ernst, and Fry), 931
Arterial grafting, simple apparatus to assist in preparing saphenous vein for (Perrin, Bayliss, and Baird), 786
grafts, vein holder for preparing (Mansoori et al.), 789
intima of rabbits, effects of humoral transplantation antibody on (O'Connell and Mowbray), 145
reconstructions, tibial, successful, angiographic criteria for (Imparato et al.), 830
surgery for atherosclerosis of lower limb, influence of age on prognosis after (Bouhoutsos and Martin), 637
and venous injuries, combined, significance in: hemodynamics of canine femoral venous ligation (Hobson et al.), 824
Arteriography, thyroid, selective, radioimmunoassay, and selective venous sampling, localization of abnormal glands by: repeated neck exploration in primary hyperparathyroidism (Wells et al.), 678
Arteriosclerotic femoral aneurysms, surgical management of (Cutler and Darling), 764
Arteriovenous fistula, modified, applicable where there is thrombosis of standard Brescia-Cimino fistula vasculature (Buselmeier et al.), 551
Artery, coronary, anomalous, total correction for tetralogy of Fallot with (Berry and McGoon), 894
disease, associated, use of diastolic augmentation with intra-aortic balloon in human septic shock with (Berger et al.), 601
surgery by plasma creatine phosphokinase isoenzyme analysis, intraoperative detection of myocardial damage during (Oldham et al.), 917
epigastric, inferior, as complication of abdominal retention sutures, false aneurysm of (Ello and Nunn), 460
hepatic, and vena cava of rat, continuous infusion into (Leivestad and Malt), 401
mesenteric, superior, in dogs with intact and divided vagus nerves, serotonin levels in portal vein plasma after occlusion of (Strauss et al.), 333
popliteal, in 11-year-old girl, mucinous advential cysts of (DeLaurentis et al.), 456
pulmonary–cava anastomosis, long-term evaluation of (Mathur and Glenn), 899
one, in continuity with right ventricular outflow tract, correction of tetralogy of Fallot in patients with (Donahoo et al.), 887
small caliber, new vascular prosthesis for (Matsumoto), 519
Assay, plasma corticosterone: pituitary-adrenal responsiveness in surgical patients on acute and chronic corticosteroid therapy (Newsome), 204
Atherosclerosis of lower limb, influence of age on prognosis after arterial surgery for (Bouhoutsos and Martin), 637
Atresia, biliary, extrahepatic: diagnosis by serum bile acid patterns and response to cholestyramine (Morrissey and Javitt), 116
esophageal, hypertrophic pyloric stenosis complicating (Glasson, Bandrevics, and Cohen), 530
Autoclavable "poop" sheets: aid to surgeon (Myers) (letter to editors), 794
Autogenous and Dacron vein bypasses in man and dog, transmission and scanning electron microscopic study of luminal surfaces in (Reichle, Stewart, and Essa), 945
Autografting very large burns from very limited donor sites, technique for (Zawacki and Asch), 774
Autografts and homografts in canine femoral venous reconstruction: double-blind study (Wright, Hobson, and Swan), 654

B

Beta-adrenergic receptor stimulant (isoproterenol) on pancreatic exocrine secretion, effect of (Rudick et al.), 338
Bile acid, serum, patterns and response to cholestyramine, diagnosis by: extrahepatic biliary atresia (Morrissey and Javitt), 116
induced gastric acid secretion, effect of antral acidification on (Nahrwold, Rose, and Kamininski), 315
secretion in cholecystectomized, conscious dog, control of (Pissidis, Nyhus, and Bombeck), 122
and stress ulcer (Safaie-Shirazi and Zike) (letter to editors), 469; reply (Norton), 469
Biliary atresia, extrahepatic: diagnosis by serum bile acid patterns and response to cholestyramine (Morrissey and Javitt), 116
Bladder, urinary, human, isolation of RNA virus from transitional cell tumors of (Elliott et al.), 46
Blockade, alpha-adrenergic, regional, and pulmonary pressor response to hypoxia (Badder, Magill, and Gump), 555
Blocking agent, alpha-adrenergic, in childhood pheochromocytoma (Gupta et al.), 545
Blood flow through aortocoronary vein bypass grafts, anatomical and physiological determinants of (Stinson, Olinger, and Glancy), 390
stenotic vessels during exercise, effects of sympathectomy on: experimental study in canine model (Weissenhofer and Schenk), 734
Bowel segments and reversed gastric tubes, esophagoplasty with (Groves and Silver), 381
Brescia-Cimino fistula vasculature, standard, modified arteriovenous fistula applicable where there is thrombosis of (Buselmeier et al.), 551
British Isles, advances against cancer in (Philpott), 687
Bronchitis, chronic, and chronic obstructive pulmonary disease, risk of anesthesia and surgery in patients with (Tarhan et al.), 720
Bubble and lung, membrane, oxygenator, General Electric–Peirce, for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874
Burn(s), very large, from very limited donor sites, technique for autografting (Zawacki and Asch), 774

Burn(s)—Cont'd
wound sepsis, experimental, evaluation of five percent Sulfamylon Cream in control of (Skornik and Dressler), 540
Burned patients, prediction of wound sepsis in: stimulated nitroblue tetrazolium test to assess neutrophil antibacterial function (Curreri et al.), 6
Bypass, cardiopulmonary, prolonged, clinical comparison of General Electric–Peirce membrane and bubble oxygenator for (Chopra et al.), 874
grafts, femoropopliteal, hemorrhage and thrombosis as early complications of: causes, treatment, and prognostic implications (Craver et al.), 839
vein, aortocoronary, anatomical and physiological determinants of blood flow through (Stinson, Olinger, and Glancy), 390
vein, Dacron and autogenous, in man and dog, transmission and scanning electron microscopic study of luminal surfaces in (Reichle, Stewart, and Essa), 945

C

Cancer in British Isles, advances against (Philpott), 687
immunotherapy of patients with (Smith et al.), 59
Carcinoid tumors and medullary carcinomas of thyroid, humoral similarities of (Kaplan et al.), 21
Carcinoma in cold nodules of thyroid gland, incidence of (Messaris, Evangelou, and Tountas), 447
medullary, of thyroid, and carcinoid tumors, humoral similarities of (Kaplan et al.), 21
of pancreas, chemotherapy for (Waddell), 420
Cardiac output estimation by pulse contour methods: validity of their use for monitoring the critically ill patient (Jurado, Matucha, and Osborn), 358
and peripheral tissue perfusion, indicator of: skeletal muscle gas tension (Furuse et al.), 214
systemic and renal responses to graded reduction in (Michaelis et al.), 853
pulse generators, permanent, extruded and infected, treatment of: application of technique of closed irrigation (Golden et al.), 575
transplants, 54, results of (Caves et al.), 307
Cardioplegia, potassium-induced, functional, metabolic, and morphologic effects of (Gay and Ebert), 284
Cardiopulmonary bypass, prolonged, clinical comparison of General Electric–Peirce membrane lung and bubble oxygenator for prolonged cardiopulmonary bypass (Chopra et al.), 874
Cava–pulmonary artery anastomosis, long-term evaluation of (Mathur and Glenn), 899
vena, and hepatic artery of rat, continuous infusion into (Leivestad and Malt), 401
Cell membrane potential, hepatic, measurement to evaluate new method of liver preservation, use of (Lambotte), 509
tumor, with antibody-enzyme conjugate, selective iodination and cytotoxicity of (Philpott, Bower, and Parker), 51
transitional, of human urinary bladder, isolation of RNA virus from (Elliott et al.), 46
Chemotherapy for carcinoma of pancreas (Waddell), 420
Cholangiogram, completion: failure to empty due to pseudo-obstruction (Watkins), 650
Cholecystectomized, conscious dog, neurohumoral control of bile secretion in (Pissidis, Nyhus, and Bombeck), 122
Cholecystectomy, sump-suction drainage of subhepatic space after (Polk), 462
Choleresis, insulin, effect of truncal vagotomy on (Kaminiski, Rose, and Nahrwold), 758
Chromosomal region, histocompatibility, major, in man, immunogenetics of (Seigler et al.), 190
Circulation, extracorporeal, reploymerized gelatin as priming solution for: experimental study in dogs (Mullerworth et al.), 666
Clinics, large, on private practice, influence of (Colcock), 483
Coagulation, preparation and observation on in vitro changes in: stroma-free hemoglobin (Moss, DeWoskin, and Cochin), 198
Colitis, ischemic, irreversible, caused by stenosis of sigmoid branches: case report (Lambana et al.), 587
Colon with elemental diet, preoperative preparation of (Glotzer, Boyle, and Silen), 703
Combat wounds of extraperitoneal rectum (Armstrong, Schmitt, and Patterson), 570
Conjugate, antibody-enzyme, selective iodination and cytotoxicity of tumor cells with (Philpott, Bower, and Parker), 51
Contractility, myocardial, real-time analysis of (Brody, Avrin, and Angell), 291
Copolymer graft developed to serve in venous prostheses, use of (Hasegawa et al.), 696
Coronary artery, anomalous, total correction for tetralogy of Fallot with (Berry and McGoon), 894
disease, associated, use of diastolic augmentation with intra-aortic balloon in human septic shock with (Berger et al.), 601
surgery by plasma creatine phosphokinase isoenzyme analysis, intraoperative detection of myocardial damage during (Oldham et al.), 917
flow, function, and oxygen consumption of intact left ventricle, effects of isoproterenol and l-norepinephrine on (Abe et al.), 562
Corticosteroid therapy, acute and chronic, pituitary-adrenal responsiveness in surgical patients on: plasma corticosterone assay (Newsome), 204
Corticosterone, plasma, assay: pituitary-adrenal responsiveness in surgical patients on acute and chronic corticosteroid therapy (Newsome), 204
Counterpulsation, external, in surgical patients, hemodynamic evaluation of (Beckman et al.), 846
Cream, Sulfamylon, five percent, in control of experimental burn wound sepsis, evaluation of (Skornik and Dressler), 540
Creatine phosphokinase, plasma, isoenzyme, analysis, intraoperative detection of myocardial damage during coronary artery surgery by (Oldham et al.), 917
Cysts, adventitial, mucinous, of popliteal artery in 11-year-old girl (DeLaurentis et al.), 456
Cytotoxicity and iodination, selective, of tumor cells with antibody-enzyme conjugate (Philpott, Bower, and Parker), 51

D

Dacron and autogenous vein bypasses in man and dog, transmission and scanning electron microscopic study of luminal surfaces in (Reichle, Stewart, and Essa), 945
Debridement in gunshot wounds and fractures, his demonstration of role of: Carl Reyher (1846-1890), great Russian military surgeon (Wangensteen and Wangensteen), 641
Diabetic patients, heparin-induced elevation of free fatty acids in (Kongtahworn et al.), 30
Diagnosis of deep vein thrombosis, correlation with lower limb venography in: impedance phlebography (Harris et al.), 385
Diastolic augmentation with intra-aortic balloon in human septic shock with associated coronary artery disease, use of (Berger et al.), 601
Disease, artery, coronary, associated, use of diastolic augmentation with intra-aortic balloon in human septic shock with (Berger et al.), 601
  pulmonary, obstructive, chronic, and chronic bronchitis, risk of anesthesia and surgery in patients with (Tarhan et al.), 720
Diet, elemental, preoperative preparation of colon with (Glotzer, Boyle, and Silen), 703
Donor sites, very limited, technique for autografting very large burns from (Zawacki and Asch), 774
Drainage, exocrine, clinical segmental pancreatic transplantation with ureter–pancreatic duct anastomosis for (Gliedman et al.), 171
  and selective gastric vagotomy for duodenal ulcer, one hundred patients five years after (Amdrup and Jensen), 321
  sump-suction, of subhepatic space after cholecystectomy (Polk), 462
Drugs, anticoagulant, in vascular thrombosis, utility of: electron microscopic and biophysical study (Sawyer et al.), 263
Duct fistulas, thoracic, chronic, albumin kinetics in patients with (McNeel, Townsend, and Fish), 344
  pancreatic–ureter anastomosis for exocrine drainage, clinical segmental pancreatic transplantation with (Gliedman et al.), 171
Duodenal ulcer, effect of truncal vagotomy with pyloroplasty or with antrectomy on food-stimulated gastrin values in patients with (Becker, Reeder, and Thompson), 580
  one hundred patients five years after selective gastric vagotomy and drainage for (Amdrup and Jensen), 321
Duplication, rectal: unusual cause for abdominal mass (Jewell, Miller, and Ehrlich), 783

E

Edema, pulmonary, and pulmonary shunting, independence of (Hechtman et al.), 300
Ehlers-Danlos syndrome, abdominal aortic aneurysmectomy in 17-year-old patient with: case report and review of literature (Burnett et al.), 617
Electron microscopic and biophysical study: utility of anticoagulant drugs in vascular thrombosis (Sawyer et al.), 263
  study, transmission and scanning, of luminal surfaces in Dacron and autogenous vein bypasses in man and dog (Reichle, Stewart, and Essa), 945
Electrosurgical coagulating-cutting forceps, new (Doss, Edwards, and McCabe), 449
Embolism, pulmonary, problems with streptokinase therapy in (Schwartz et al.), 727
  tumor, fatal, during examination under anesthesia (Arthur et al.), 466
Emergency, surgical: critical pulmonary stenosis in infants (Litwin et al.), 880
Endotoxemia, experimental, role in increasing accuracy of Limulus gelatin test and in combating (Das, Schwartz, and Folkman), 235
Endotoxin by platelets, clearance of: role in increasing accuracy of Limulus gelatin test and in combating experimental endotoxemia (Das, Schwartz, and Folkman), 235
Enzyme-antibody conjugate, selective iodination and cytotoxicity of tumor cells with (Philpott, Bower, and Parker), 51
Epigastric artery, inferior, as complication abdominal retention sutures, false aneurysm of (Ello and Nunn), 460
Epinephrine during hemorrhagic shock in adrenalectomized primate, altered insulin and glucose metabolism produced by (Hiebert et al.), 223
Esophageal atresia, hypertrophic pyloric stenosis complicating (Glasson, Bandrevics, and Cohen), 530
Esophagoplasty with bowel segments and reversed gastric tubes (Groves and Silver), 381
Estrogen-binding to pancreas (Kirdani, Sandberg, and Murphy), 84
Examination under anesthesia, fatal tumor embolism during (Arthur et al.), 466
Exocrine drainage, clinical segmental pancreatic transplantation with ureter–pancreatic duct anastomosis for (Gliedman et al.), 171
  pancreatic, secretion, effects of beta-adrenergic receptor stimulant (isoproterenol) on (Rudick et al.), 338
Extracorporeal circulation, repolymerized gelatin as priming solution for: experimental study in dogs (Mullerworth et al.), 666
Extrahepatic biliary atresia: diagnosis by serum bile acid patterns and response to cholestyramine (Morrissey and Javitt), 116
Extraperitoneal rectum, combat wounds of (Armstrong, Schmitt, and Patterson), 570

F

Failure, heart, chronic, secondary to akinesis of left ventricle: experimental study (Lloyd-Jones et al.), 607
Fallot, with anomalous coronary artery, total correction for tetralogy of (Berry and McGoon), 894
  in patients with one pulmonary artery in continuity with right ventricular outflow tract, correction of tetralogy of (Donahoo et al.), 887
Fatty acids, free, in diabetic patients, heparin-induced elevation of (Kongtahworn et al.), 30
Femoral aneurysms, arteriosclerotic, surgical management of (Cutler and Darling), 764
  venous ligation, canine, hemodynamics of: significance in combined arterial and venous injuries (Hobson et al.), 824
    occlusion, canine, hemodynamic effects of sympathectomy on (Wright et al.), 405

Femoral venous—Cont'd
reconstruction, canine, autografts and homografts in: double-blind study (Wright, Hobson, and Swan), 654
Femoropopliteal bypass grafts, hemorrhage and thrombosis as early complications of: causes, treatment, and prognostic implications (Craver et al.), 839
Fistula(s), arteriovenous, modified, applicable where there is thrombosis of standard Brescia-Cimino fistula vasculature (Buselmeier et al.), 551
duct, thoracic, chronic, albumin kinetics in patients with (McNeel, Townsend, and Fish), 344
gastrointestinal, with parenteral hyperalimentation, management of (MacFadyen, Dudrick, and Ruberg), 100
Flow, blood, through aortocoronary vein bypass grafts, anatomical and physiological determinants of (Stinson, Olinger, and Glancy), 390
stenotic vessels during exercise, effects of sympathectomy on: experimental study in canine model (Weissenhofer and Schenk), 734
coronary, function, and oxygen consumption of intact left ventricle, effects of isoproterenol and l-norepinephrine on (Abe et al.), 562
Forceps, coagulating-cutting, electrosurgical, new (Doss, Edwards, and McCabe), 449
Fractures and gunshot wounds, his demonstration of role of debridement in: Carl Reyher (1846-1890), great Russian military surgeon (Wangensteen and Wangensteen), 650
Freezing of canine kidneys, long-term functional success following (Dietzman et al.), 181
Full-time surgeon in private hospital and town-gown conflict (Foster), 499
and voluntary surgeons in a university hospital, integration of (Ballinger and Collins), 488

G

Galactose elimination capacity in intact and isolated pig liver (Welch and Parbhoo), 708
Gallbladder as conduit between liver and intestine (Waddell and Grover), 524
Gas tension, muscle, skeletal; indicator of cardiac output and peripheral tissue perfusion (Furuse et al.), 214
Gastric acid secretion, bile-induced, effect of antral acidification on (Nahrwold, Rose, and Kaminiski), 315
histidine decarboxylase, murine, activity, by sheep red blood cell (SRBC) immunization, stimulation of (Moore, Sinclair, and Lemmi), 444
juice of dogs, recovery of intravenously administered radiolabeled gastrin in (Yip and Jordan), 412
tubes, reversed, and bowel segments, esophagoplasty with (Groves and Silver), 381
vagotomy, selective, and drainage for duodenal ulcer, one hundred patients five years after (Amdrup and Jensen), 321
Gastrin, radiolabeled, intravenously administered, in gastric juice of dogs, recovery of (Yip and Jordan), 405
tissue, levels, in stomach and pancreas in rats, influence of vagotomy on (Becker, Reeder, and Thompson), 778
Gastrin—Cont'd
values, food-stimulated, in patients with duodenal ulcer, effect of truncal vagotomy with pyloroplasty or with antrectomy on (Becker, Reeder, and Thompson), 580
Gastrointestinal fistulas with parenteral hyperalimentation, management of (MacFadyen, Dudrick, and Ruberg), 100
tract, significance of serotonin in: clinical notes (Wise), 452
Gastrostomy in pediatric patients: analysis of complications and techniques (Gallagher, Tyson, and Ashcraft), 536
Gelatin, repolymerized, as priming solution for extracorporeal circulation: experimental study in dogs (Mullerworth et al.), 666
test, Limulus, and in combating experimental endotoxemia, role in increasing accuracy of: clearance of endotoxin by platelets (Das, Schwartz, and Folkman), 235
General Electric–Peirce membrane lung and bubble oxygenator for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874
Generators, pulse, cardiac, permanent, extruded and infected, treatment of: application of technique of closed irrigation (Golden et al.), 575
Glands, abnormal, by selective thyroid arteriography, selective venous sampling, and radioimmunoassay, localization of: repeated neck exploration in primary hyperparathyroidism (Wells et al.), 678
thyroid, incidence of carcinoma in cold nodules of (Messaris, Evangelou, and Tountas), 447
Glucose and insulin metabolism, altered, produced by epinephrine during hemorrhagic shock in adrenalectomized primate (Hiebert et al.), 223
Graft(s), arterial, vein holder for preparing (Mansoori et al.), 789
bypass, femoropopliteal, hemorrhage and thrombosis as early complications of: causes, treatment, and prognostic implications (Craver et al.), 839
vein, aortocoronary, anatomical and physiological determinants of blood flow through (Stinson, Olinger, and Glancy), 390
copolymer, developed to serve in venous prostheses (Hasegawa et al.), 696
vein, aortorenal, 100, fate of: characteristics of late graft expansion, aneurysmal dilatation, and stenosis (Stanley, Ernst, and Fry), 931
Grafting, arterial, simple apparatus to assist in preparing saphenous vein for (Perrin, Bayliss, and Baird), 786

H

Head trauma patients, noninvasive evaluation of (Larson et al.), 34
Heart failure, chronic, secondary to akinesis of left ventricle: experimental study (Lloyd-Jones et al.), 607
hypertrophied, to stress, response of (Geha et al.), 276
Hemodialysis (Huguet) (letter to editors), 636; reply (Abouna), 636
Hemodynamic effects, adverse, of vasopressin, addition of isoproterenol prevents (Skivolocki and Thomford), 752
of sympathectomy on canine femoral venous occlusion (Wright et al.), 405

Hemodynamic—Cont'd
evaluation of external counterpulsation in surgical patients (Beckman et al.), 846
studies, preoperative, in portal hypertension, assessment of validity of (Smith), 130
Hemodynamics of canine femoral venous ligation: significance in combined arterial and venous injuries (Hobson et al.), 824
Hemoglobin, stroma-free: preparation and observations on in vitro changes in coagulation (Moss, DeWoskin, and Cochin), 198
Hemorrhage and thrombosis as early complications of femoropopliteal bypass grafts: causes, treatment, and prognostic implications (Craver et al.), 839
Hemorrhagic pancreatitis, peritoneal lavage therapy in (Rosato, Mullis, and Rosato), 106
shock in adrenalectomized primate, altered insulin and glucose metabolism produced by epinephrine during (Hiebert et al.), 223
experimental, adenosine 3′,5′-monophosphate metabolism in liver in (Rutenburg et al.), 660
on intracellular muscle action potentials in primate, effect of (Trunkey et al.), 241
Heparin-induced elevation of free fatty acids in diabetic patients (Kongtahworn et al.), 30
Hepatic artery and vena cava of rat, continuous infusion into (Leivestad and Malt), 401
cell membrane potential measurement to evaluate new method of liver preservation, use of (Lambotte), 509
Hepatomas, spontaneous rupture of liver caused by (Hermann and David), 715
Histidine decarboxylase activity, gastric, murine, by sheep red blood cell (SRBC) immunization, stimulation of (Moore, Sinclair, and Lemmi), 444
Histocompatibility chromosomal region, major, in man, immunogenetics of (Seigler et al.), 190
HMO surgical practice appropriate for academic surgeon, is? (Wright et al.), 41
Homografts and autografts in canine femoral venous reconstruction: double-blind study (Wright, Hobson, and Swan), 654
Hormone, parathyroid, in Zollinger-Ellison syndrome, serum levels of (Jaffe, Peskin, and Kaplan), 621
Hospital, private, and town-gown conflict, full-time surgeon and (Foster), 499
residency programs, affiliated, town-gown relations and (Moody), 474
university, integration of full-time and voluntary surgeons in (Ballinger and Collins), 488
private surgeon in (Bricker), 494
Human transplantation, antigenic stimulus in (Kahan et al.), 153
urinary bladder, isolation of RNA virus form transitional cell tumors of (Elliott et al.), 46
Humoral similarities of carcinoid tumors and medullary carcinomas of thyroid (Kaplan et al.), 21
transplantation antibody on arterial intima of rabbits, effects of (O'Connell and Mowbray), 145
Hyperalimentation, parenteral, management of gastrointestinal fistulas with (MacFadyen, Dudrick, and Ruberg), 106
Hyperparathyroidism, primary, repeated neck exploration in: localization of abnormal glands by selective thyroid arteriography, selective venous sampling, and radioimmunoassay (Wells et al.), 678
Hypertension, portal, assessment of validity of preoperative hemodynamic studies in (Smith), 130
diagnosable and curable form of: splenic vein thrombosis (Salam, Warren, and Tyras), 961
renovascular, criteria for diagnosis of (Dean and Foster), 926
Hypertrophic pyloric stenosis complicating esophageal atresia (Glasson, Bandrevics, and Cohen), 530
Hypertrophied heart to stress, response of (Geha et al.), 276
Hypervolemia and hypothermia, treatment of volume resistant experimental shock by (Halmagyi, Frazer, and Varga), 370
Hypothermia and hypervolemia, treatment of volume resistant experimental shock by (Halmagyi, Frazer, and Varga), 370
Hypoxia, regional alpha-adrenergic response and pulmonary pressor response to (Badder, Magill, and Gump), 555
and stress ulcer formation in the rat (Mullane, Smith, and Wilfong), 326

I

Immunization, sheep red blood cell (SRBC), stimulation of murine gastric histidine decarboxylase activity by (Moore, Sinclair, and Lemmi), 444
Immunogenetics of major histocompatibility chromosomal region in man (Seigler et al.), 190
Immunological and physiological consequences of transplanting isolated pancreatic islets (Reckard, Zeigler, and Barker), 91
Immunology, tumor, horizons in (Morton), 69
Immunotherapy of patients with cancer (Smith et al.), 59
Impedance phlebography: correlation with lower limb venography in diagnosis of deep vein thrombosis (Harris et al.), 385
Infection, tissue, new variable in pathophysiology of—antiphagocytosis (Burleson), 14
Inferior epigastric artery as complication of abdominal retention sutures, false aneurysm of (Ello and Nunn), 460
Infusion, continuous, into hepatic artery and vena cava of rat (Leivestad and Malt), 401
Injuries, arterial and venous, combined, significance in: hemodynamics of canine femoral venous ligation (Hobson et al.), 824
to great vessels, early operative management of (Reul et al.), 862
Insulin choleresis, effect of truncal vagotomy on (Kaminiski, Rose, and Nahrwold), 758
and glucose metabolism, altered, produced by epinephrine during hemorrhagic shock in adrenalectomized primate (Hiebert et al.), 223
Internship performance, over-all student performance as measure of (Gardner), 80
Intestine and liver, gallbladder as conduit between (Waddell and Grover), 524
Intima, arterial, of rabbits, effects of humoral transplantation antibody on (O'Connell and Mowbray), 145
Intra-aortic balloon in human septic shock with associated coronary artery disease, use of diastolic augmentation with (Berger et al.), 601

Intracellular muscle action potentials in primate, effect of hemorrhagic shock on (Trunkey et al.), 241
Iodination and cytotoxicity, selective, of tumor cells with antibody-enzyme conjugate (Philpott, Bower, and Parker), 51
Irrigation, closed, application of technique of: treatment of extruded and infected permanent cardiac pulse generators (Golden et al.), 575
Ischemic colitis, irreversible, caused by stenosis of sigmoid branches: case report (Lambana et al.), 587
  myocardium by surface pH measurements, detection of (Deuvaert, Cohn, and Collins), 437
Islets, pancreatic, isolated, physiological and immunological consequences of transplanting (Reckard, Zeigler, and Barker), 91
Isoenzyme analysis, plasma creatine phosphokinase, intraoperative detection of myocardial damage during coronary artery surgery by (Oldham et al.), 917
Isoproterenol (beta-adrenergic receptor stimulant) on pancreatic exocrine secretion, effects of (Rudick et al.), 338
  and l-norepinephrine on function, coronary flow, and oxygen consumption of intact left ventricle, effects of (Abe et al.), 562
  prevents adverse hemodynamic effects of vasopressin, addition of (Skivolocki and Thomford), 752

J

Juice, gastric, of dogs, recovery of intravenously administered radiolabeled gastrin in (Yip and Jordan), 412

K

Kidneys, canine, long-term functional success following freezing of (Dietzman et al.), 181
Kinetics, albumin, in patients with chronic thoracic duct fistulas (McNeel, Townsend, and Fish), 344

L

Lavage therapy, peritoneal, in hemorrhagic pancreatitis (Rosato, Mullis, and Rosato), 106
Limb, lower, venography in diagnosis of deep vein thrombosis, correlation with: impedance phlebography (Harris et al.), 385
Limulus gelatin test and in combating experimental endotoxemia, role in increasing accuracy of: clearance of endotoxin by platelets (Das, Schwartz, and Folkman), 235
Liver in experimental hemorrhagic shock, adenosine 3′,5′-monophosphate metabolism in (Rutenberg et al.), 660
  heterotropic (auxiliary) transplantation, clinical (Fortner et al.), 739
  and intestine, gallbladder as conduit between (Waddell and Grover), 524
  pig, intact and isolated, galactose elimination capacity in (Welch and Parbhoo), 708
  preservation, use of hepatic cell membrane potential measurement to evaluate new method of (Lambotte), 509
  spontaneous rupture of, caused by hepatomas (Hermann and David), 715
Luminal surfaces in Dacron and autogenous vein bypasses in man and dog, transmission and scanning electron microscopic study of (Reichle, Stewart, and Essa), 945
Lung, membrane, and bubble oxygenator, General Electric–Pierce, for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874
  reimplantation, left, pulmonary function in dogs after (Jones et al.), 593

M

Management of gastrointestinal fistulas with parenteral fistulas with parenteral hyperalimentation (MacFayden, Dudrick, and Ruberg), 100
  operative, early, of injuries to great vessels (Reul et al.), 862
Mass, abdominal, unusual cause for: rectal duplication (Jewell, Miller, and Ehrlich), 783
Medical "future shock" (Civetta) (editorial), 631
Medullary carcinomas of thyroid and carcinoid tumors, humoral similarities of (Kaplan et al.), 21
Membrane lung and bubble oxygenator, General Electric–Peirce, for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874
  potential, cell, hepatic, measurement to evaluate new method of liver preservation, use of (Lambotte), 509
Mesenteric artery, superior, in dogs with intact and divided vagus nerves, serotonin levels in portal vein plasma after occlusion of (Strauss et al.), 333
  panniculitis presenting as abdominal aortic aneurysms (Gaylis, Isaacson, and Decker), 626
Metabolism, adenosine 3′,5′-monophosphate, in liver in experimental hemorrhagic shock (Rutenberg et al.), 660
Mucinous adventitial cysts of popliteal artery in 11-year-old girl (DeLaurentis et al.), 456
Muscle action potentials, intracellular, in primate, effect of hemorrhagic shock on (Trunkey et al.), 241
  skeletal, gas tension: indicator of cardiac output and peripheral tissue perfusion (Furuse et al.), 214
Myocardial contractility, real-time analysis of (Brody, Avrin, and Angell), 291
  damage during coronary artery surgery by plasma creatine phosphokinase isoenzyme analysis, intraoperative detection of (Oldham et al.), 917
Myocardium, ischemic, by surface pH measurements, detection of (Deuvaert, Cohn, and Collins), 437

N

Neck exploration, repeated, in primary hyperparathyroidism: localization of abnormal glands by selective thyroid arteriography, selective venous sampling, and radioimmunoassay (Wells et al.), 678
Nerves, vagus, intact and divided, serotonin levels in portal vein plasma after occlusion of superior mesenteric artery in dogs with (Strauss et al.), 333
Neurohumoral control of bile secretion in cholecystectomized, conscious dog (Pissidis, Nyhus, and Bombeck), 122
Neuropathies, peripheral, postoperative (Parks), 348
Neutrophil antibacterial function, stimulated nitroblue tetrazolium test to assess: prediction of wound sepsis in burned patients (Curreri et al.), 6

Nitroblue tetrazolium, test, stimulated, to assess neutrophil antibacterial function: prediction of wound sepsis in burned patients (Curreri et al.), 6
Nodules, cold, of thyroid gland, incidence of carcinoma in (Messaris, Evangelou, and Tountas), 447
Noninvasive evaluation of head trauma patients (Larson et al.), 34
l-Norepinephrine and isoproterenol on function, coronary flow, and oxygen consumption of intact left ventricle, effects of (Abe et al.), 562

O

Obstruction, pseudo-, failure to empty due to: completion cholangiogram (Watkins), 650
Occlusion of superior mesenteric artery in dogs with intact and divided vagus nerves, serotonin levels in portal vein plasma after (Strauss et al.), 333
  venous, femoral, canine, hemodynamic effects of sympathectomy on (Wright et al.), 405
Outflow tract, ventricular, right, correction of tetralogy of Fallot in patients with one pulmonary artery in continuity with (Donahoo et al.), 887
Output, cardiac, estimation by pulse contour methods: validity of their use for monitoring the critically ill patient (Jurado, Matucha, and Osborn), 358
  and peripheral tissue perfusion, indicator of cardiac: skeletal muscle gas tension (Furuse et al.), 214
  systemic and renal responses to graded reduction in (Michaelis et al.), 853
Oxygen consumption, function, and coronary flow of intact left ventricle, effects of isoproterenol and l-norepinephrine on (Abe et al.), 562
Oxygenator, lung, membrane, and bubble, General Electric–Peirce, for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874

P

Pancreas, chemotherapy for carcinoma of (Waddell), 420
  estrogen-binding to (Kirdani, Sandberg, and Murphy), 84
  and stomach in rats, influence of vagotomy on tissue gastrin levels in (Becker, Reeder, and Thompson), 778
Pancreatic duct–ureter anastomosis for exocrine drainage, clinical segmental pancreatic transplantation with (Gliedman et al.), 171
  exocrine secretion, effects of beta-adrenergic receptor stimulant (isoproterenol) on (Rudick et al.), 338
  islets, isolated, physiological and immunological consequences of transplanting (Reckard, Zeigler, and Barker), 91
  transplantation, segmental, clinical, with ureter–pancreatic duct anastomosis for exocrine drainage (Gliedman et al.), 171
Pancreatitis, hemorrhagic, peritoneal lavage therapy in (Rosato, Mullis, and Rosato), 106
Panniculitis, mesenteric, presenting as abdominal aortic aneurysms (Gaylis, Isaacson, and Decker), 626
Parathyroid hormone in Zollinger-Ellison syndrome, serum levels of (Jaffe, Peskin, and Kaplan), 621
Parenteral hyperalimentation, management of gastrointestinal fistulas with (MacFadyen, Dudrick, and Ruberg), 100
Pathophysiology of tissue infection, new variable in—antiphagocytosis (Burleson), 14
Pediatric patients, gastrostomy in: analysis of complications and techniques (Gallagher, Tyson, and Ashcraft), 536
Peirce–General Electric membrane lung and bubble oxygenator for prolonged cardiopulmonary bypass, clinical comparison of (Chopra et al.), 874
Perfusion, tissue, peripheral, and cardiac output, indicator of: skeletal muscle gas tension (Furuse et al.), 214
Peripheral neuropathies, postoperative (Parks), 348
Peritoneal lavage therapy in hemorrhagic pancreatitis (Rosato, Mullis, and Rosato), 106
pH measurements, surface, detection of ischemic myocardium by (Deuvaert, Cohn, and Collins), 437
Pheochromocytoma, childhood, alpha-adrenergic blocking agent in (Gupta et al.), 545
Philosophy of living, on success and (Austen) (Presidential address, Society of University Surgeons), 1
Phlebography, impedance: correlation with lower limb venography in diagnosis of deep vein thrombosis (Harris et al.), 385
Physiological and anatomical determinants of blood flow through aortocoronary vein bypass grafts (Stinson, Olinger, and Glancy), 390
  and immunological consequences of transplanting isolated pancreatic islets (Reckard, Zeigler, and Barker), 91
Pituitary-adrenal responsiveness in surgical patients on acute and chronic corticosteroid therapy: plasma corticosterone assay (Newsome), 204
Plasma corticosterone assay: pituitary-adrenal responsiveness in surgical patients on acute and chronic corticosteroid therapy (Newsome), 204
  creatine phosphokinase isoenzyme analysis, intraoperative detection of myocardial damage during coronary artery surgery by (Oldham et al.), 917
  vein, portal, after occlusion of superior mesenteric artery in dogs with intact and divided vagus nerves, serotonin levels in (Strauss et al.), 333
Platelets, clearance of endotoxin by: role in increasing the accuracy of Limulus gelatin test and in combating experimental endotoxemia (Das, Schwartz, and Folkman), 235
Popliteal artery in 11-year-old girl, mucinous adventitial cysts of (DeLaurentis et al.), 456
Portal hypertension, assessment of validity of preoperative hemodynamic studies in (Smith), 130
  diagnosable and curable form of: splenic vein thrombosis (Salam, Warren, and Tyras), 961
  vein plasma after occlusion of superior mesenteric artery in dogs with intact and divided vagus nerves, serotonin levels in (Strauss et al.), 333
Potassium-induced cardioplegia, functional, metabolic, and morphologic effects of (Gay and Ebert), 284

Potential(s), action, muscle, intracellular, in primate, effect of hemorrhagic shock on (Trunkey et al.), 241
membrane, cell, hepatic, measurement to evaluate new method of liver preservation, use of (Lambotte), 509
Practice, private, influence of large clinics on (Colcock), 483
versus academic surgery: young surgeon's dilemma (Drews) (editorial), 634
Preimmunization, planned, of renal allograft recipients (Newton and Anderson), 430
Preservation, liver, use of hepatic cell membrane potential measurement to evaluate new method of (Lambotte), 509
Presidential address, Allen O. Whipple Surgical Society (Sabiston), 471
Society of University Surgeons, 1
Society for Vascular Surgery (Barker), 797
Pressor response, pulmonary, to hypoxia, regional alpha-adrenergic blockade and (Badder, Magill, and Gump), 555
Private hospital and town-gown conflict, full-time surgeon and (Foster), 499
practice, influence of large clinics on (Colcock), 483
versus academic surgery: young surgeon's dilemma (Drews) (editorial), 634
surgeon looks at academia (Johnston), 505
in university hospital (Bricker), 494
Programs, residency, hospital, affiliated, town-gown relations and (Moody), 474
Prostheses, venous, copolymer graft developed to serve in (Hasegawa et al.), 696
Prosthesis, vascular, new, for small caliber artery (Matsumoto), 519
Pulmonary artery–cava anastomosis, long-term evaluation of (Mathur and Glenn), 899
one, in continuity with right ventricular outflow tract, correction of tetralogy of Fallot in patients with (Donahoo et al.), 887
disease, obstructive, chronic, and chronic bronchitis, risk of anesthesia and surgery in patients with (Tarhan et al.), 720
embolism, acute, problems with streptokinase therapy in (Schwartz et al.), 727
function in dogs after left lung reimplantation (Jones et al.), 593
pressor response to hypoxia, regional alpha-adrenergic blockade and (Badder, Magill, and Gump), 555
shunting and pulmonary edema, independence of (Hechtman et al.), 300
stenosis, critical, in infants: surgical emergency (Litwin et al.), 880
Pulse contour methods, cardiac output estimation by: validity of their use for monitoring the critically ill patient (Jurado, Matucha, and Osborn), 358
generators, cardiac, permanent, extruded and infected, treatment of: application of technique of closed irrigation (Golden et al.), 575
Pyloric stenosis, hypertrophic, complicating esophageal atresia (Glasson, Bandrevics, and Cohen), 530
Pyloroplasty or with antrectomy on food-stimulated gastrin values in patients with duodenal ulcer, effect of truncal vagotomy with (Becker, Reeder, and Thompson), 580

R

Radioimmunoassay, selective venous sampling, and selective thyroid arteriography, localization of abnormal glands by: repeated neck exploration in primary hyperparathyroidism (Wells et al.), 678
Receptor, beta-adrenergic, stimulant (isoproterenol) on pancreatic exocrine secretion, effects of (Rudick et al.), 338
Reconstruction(s), arterial, tibial, successful, angiographic criteria for (Imparato et al.), 830
venous, femoral, canine, autografts and homografts in: double-blind study (Wright, Hobson, and Swan), 654
Rectal duplication: unusual cause for abdominal mass (Jewell, Miller, and Ehrlich), 783
Rectum, extraperitoneal, combat wounds of (Armstrong, Schmitt, and Patterson), 570
Reimplantation, lung, left, pulmonary function in dogs after (Jones et al.), 593
Renal allografts, canine, prospective in vitro prediction of enhancement of (Hattler et al.), 163
recipients, planned preimmunization of (Newton and Anderson), 430
and systemic responses to graded reduction in cardiac output (Michaelis et al.), 853
Renovascular hypertension, criteria for diagnosis of (Dean and Foster), 926
Residency programs, hospital, affiliated, town-gown relations and (Moody), 474
surgical: length and quality (Spencer, Reemtsma, and Ebert) (editorial), 791
Respiratory distress syndrome: a review (Blaisdell and Schlobohm), 251
Retention sutures, abdominal, false aneurysm of inferior epigastric artery as complication of (Ello and Nunn), 460
Reyher, Carl (1846-1890), great Russian military surgeon: his demonstration of role of debridement in gunshot wounds and fractures (Wangensteen and Wangensteen), 641
RNA virus from transitional cell tumors of human urinary bladder, isolation of (Elliott et al.), 46
Rupture, spontaneous, of liver caused by hepatomas (Hermann and David), 715

S

Saphenous vein for arterial grafting, simple apparatus to assist in preparing (Perrin, Bayliss, and Baird), 786
Secretion, acid, gastric, bile-induced, effect of antral acidification on (Nahrwold, Rose, and Kaminiski), 315
exocrine, pancreatic, effects of beta-adrenergic receptor stimulant (isoproterenol) on (Rudick et al.), 338
Segmental pancreatic transplantation, clinical, with ureter–pancreatic duct anastomosis for exocrine drainage (Gliedman et al.), 171
Sepsis, wound, burn, experimental, evaluation of five percent Sulfamylon Cream in control of (Skornik and Dressler), 540
in burned patients, prediction of: stimulated nitroblue tetrazolium test to assess neutrophil antibacterial function (Curreri et al.), 6
Septic shock, human, with associated coronary artery disease, use of diastolic augmentation with intra-aortic balloon in (Berger et al.), 601
Serotonin in gastrointestinal tract, significance of: clinical notes (Wise), 452

Serotonin—Cont'd
levels in portal vein plasma after occlusion of superior mesenteric artery in dogs with intact and divided vagus nerves (Strauss et al.), 333
Serum bile acid patterns and response to cholestyramine, diagnosis by: extrahepatic biliary atresia (Morrissey and Javitt), 116
levels of parathyroid hormone in Zollinger-Ellison syndrome (Jaffe, Peskin, and Kaplan), 621
Shock, experimental, volume resistant, by hypervolemia and hypothermia, treatment of (Halmagyi, Frazer, and Varga), 370
hemorrhagic, in adrenalectomized primate, altered insulin and glucose metabolism produced by epinephrine during (Hiebert et al.), 223
experimental, adenosine 3′,5′-monophosphate metabolism in liver in (Rutenburg et al.), 660
on intracellular muscle action potentials in primate, effect of (Trunkey et al.), 241
septic, human, with associated coronary artery disease, use of diastolic augmentation with intra-aortic balloon in (Berger et al.), 601
"Shock, future," medical (Civetta) (editorial), 631
Shunting, pulmonary, and pulmonary edema, independence of (Hechtman et al.), 300
Sigmoid branches, irreversible ischemic colitis caused by stenosis of: case report (Lambana et al.), 587
Skeletal muscle gas tension: indicator of cardiac output and peripheral tissue perfusion (Furuse et al.), 214
Solution, priming, for extracorporeal circulation, repolymerized gelatin as: experimental study in dogs (Mullerworth et al.), 666
Soviet Union, surgical training in (Scribner and Raithaus), 139
Splenic vein thrombosis: diagnosable and curable form of portal hypertension (Salam, Warren, and Tyras), 961
SRBC (sheep red blood cell) immunization, stimulation of murine gastric histidine decarboxylase activity by (Moore, Sinclair, and Lemmi), 444
Stenosis, late graft expansion, and aneurysmal dilatation, characteristics of: fate of 100 aortorenal vein grafts (Stanley, Ernst, and Fry), 931
pulmonary, critical, in infants: surgical emergency (Litwin et al.), 880
pyloric, hypertrophic, complicating esophageal atresia (Glasson, Bandrevics, and Cohen), 530
of sigmoid branches, irreversible ischemic colitis caused by: case report (Lambana et al.), 587
Stenotic vessels during exercise, effects of sympathectomy on blood flow through: experimental study in canine model (Weissenhofer and Schenk), 734
Stimulant, receptor, beta-adrenergic (isoproterenol) on pancreatic exocrine secretion, effects of (Rudick et al.), 338
Stomach and pancreas in rats, influence of vagotomy on tissue gastrin levels in (Becker, Reeder, and Thompson), 778
Streptokinase therapy in acute pulmonary embolism, problems with (Schwartz et al.), 727
Stress, response of hypertrophied heart to (Geha et al.), 276
Stress—Cont'd
ulcer and bile (Safaie-Shirazi and Zike) (letter to editors), 469; reply (Norton), 469
formation and hypoxia in rat (Mullane, Smith, and Wilfong), 326
Stroma-free hemoglobin: preparation and observations on in vitro changes in coagulation (Moss, DeWoskin, and Cochin), 198
Student performance, over-all, as measure of internship performance (Gardner), 80
Subhepatic space after cholecystectomy, sump-suction drainage of (Polk), 462
Sulfamylon Cream, five percent, in control of experimental burn wound sepsis, evaluation of (Skornik and Dressler), 540
Sump-suction drainage of subhepatic space after cholecystectomy (Polk), 462
Superior mesenteric artery in dogs with intact and divided vagus nerves, serotonin levels in portal vein plasma after occlusion of (Strauss et al.), 333
Surgeon, academic, is HMO surgical practice appropriate for? (Wright et al.), 41
aid to: autoclavable "poop" sheets (Myers) (letter to editors), 794
full-time, in private hospital and town-gown conflict (Foster), 499
and voluntary, in university hospital, integration of (Ballinger and Collins), 488
military, Russian, great, Carl Reyher (1846-1890): his demonstration of role of debridement in gunshot wounds and fractures (Wangensteen and Wangensteen), 641
private, looks at academia (Johnston), 505
in university hospital (Bricker), 494
Surgeon's dilemma, young: academic surgery versus private practice (Drews) (editorial), 634
Surgery, academic, versus private practice: young surgeon's dilemma (Drews) (editorial), 634
and anesthesia in patients with chronic bronchitis and chronic obstructive pulmonary disease, risk of (Tarhan et al.), 720
arterial, for atherosclerosis of lower limb, influence of age on prognosis after (Bouhoutsos and Martin), 637
artery, coronary, by plasma creatine phosphokinase isoenzyme analysis, intraoperative detection of myocardial damage during (Oldham et al.), 917
Surgical emergency: critical pulmonary stenosis in infants (Litwin et al.), 880
management of arteriosclerotic femoral aneurysms (Cutler and Darling), 764
patients on acute and chronic corticosteroid therapy, pituitary-adrenal responsiveness in: plasma corticosterone assay (Newsome), 204
hemodynamic evaluation of external counterpulsation in (Beckman et al.), 846
practice, HMO, appropriate for academic surgeons, is? (Wright et al.), 41
residency: length and quality (Spencer, Reemtsma, and Ebert) (editorial), 791
training in Soviet Union (Scribner and Raithaus), 139
vascular—panel discussion (DeWeese et al.), 803
Sutures, retention, abdominal, false aneurysm of inferior epigastric artery as a complication of (Ello and Nunn), 460
Sympathectomy on blood flow through stenotic vessels during exercise, effects of: experimental study in canine model (Weissenhofer and Schenk), 734

Sympathectomy—Cont'd
on canine femoral venous occlusion, hemodynamic effects of (Wright et al.), 405
Syndrome, Ehlers-Danlos, abdominal aortic aneurysmectomy in 17-year-old patient with: case report and review of literature (Burnett et al.), 617
respiratory distress: a review (Blaisdell and Schlobohm), 251
Zollinger-Ellison, serum levels of parathyroid hormone in (Jaffe, Peskin, and Kaplan), 621
Systemic and renal responses to graded reduction in cardiac output (Michaelis et al.), 853

T

Tension, gas, muscle, skeletal: indicator of cardiac output and peripheral tissue perfusion (Furuse et al.), 214
Test, gelatin, Limulus, and in combating experimental endotoxemia, role in increasing accuracy of: clearance of endotoxin by platelets (Das, Schwartz, and Folkman), 235
Tetralogy of Fallot with anomalous coronary artery, total correction for (Berry and McGoon), 894
in patients with one pulmonary artery in continuity with right ventricular outflow tract, correction of (Donahoo et al.), 887
Therapy, corticosteroid, acute and chronic, pituitary responsiveness in surgical patients on: plasma corticosterone assay (Newsome), 204
lavage, peritoneal, in hemorrhagic pancreatitis (Rosato, Mullis, and Rosato), 106
Thoracic duct fistulas, chronic, albumin kinetics in patients with (McNeel, Townsend, and Fish), 344
Thrombolytic therapy in deep vein thrombosis, controlled study of (Tsapogas et al.), 973
Thrombosis and hemorrhage as early complications of femoropopliteal bypass grafts: causes, treatment, and prognostic implications (Craver et al.), 839
of standard Brescia-Cimino fistula vasculature, modified arteriovenous fistula applicable where there is (Buselmeier et al.), 551
vascular, utility of anticoagulant drugs in: electron microscopic and biophysical study (Sawyer et al.), 263
vein, deep, controlled study of thrombolytic therapy in (Tsapogas et al.), 973
correlation with lower limb venography in diagnosis of: impedance phlebography (Harris et al.), 385
splenic: diagnosable and curable form of portal hypertension (Salam, Warren, and Tyras), 961
Thyroid arteriography, selective, radioimmunoassay, and selective venous sampling, localization of abnormal glands by: repeated neck exploration in primary hyperparathyroidism (Wells et al.), 678
gland, incidence of carcinoma in cold nodules of (Messaris, Evangelou, and Tountas), 447
Tibial arterial reconstructions, successful, angiographic criteria for (Imparato et al.), 830
Tissue gastrin levels in stomach and pancreas in rats, influence of vagotomy on (Becker, Reeder, and Thompson), 778
infection, new variable in pathophysiology of—antiphagocytosis (Burleson), 14
Tissue—Cont'd
perfusion, peripheral, and cardiac output, indicator of: skeletal muscle gas tension (Furuse et al.), 214
Town-gown conflict, full-time surgeon in private hospital and (Foster), 499
problems and solutions (Cole), 479
relations and affiliated hospital residency programs (Moody), 474
Tract, gastrointestinal, significance of serotonin in: clinical notes (Wise), 452
outflow, ventricular, right, correction of tetralogy of Fallot in patients with one pulmonary artery in continuity with (Donahoo et al.), 887
Training, surgical, in Soviet Union (Scribner and Raithaus), 139
vascular—panel discussion (DeWeese et al.), 803
Transplantation, cardiac, 54, results of (Caves et al.), 307
clinical liver heterotopic (auxiliary) (Fortner et al.), 739
human, antigenic stimulus in (Kahan et al.), 153
humoral, antibody on arterial intima of rabbits, effects of (O'Connell and Mowbray), 145
of isolated pancreatic islets, physiological and immunological consequences of (Reckard, Zeigler, and Barker), 91
pancreatic, segmental, clinical, with ureter–pancreatic duct anastomosis for exocrine drainage (Gliedman et al.), 171
Trauma patients, head, noninvasive evaluation of (Larson et al.), 34
Treatment of volume resistant experimental shock by hypervolemia and hypothermia (Halmagyi, Frazer, and Varga), 370
Truncal vagotomy on insulin choleresis, effect of (Kaminiski, Rose, and Nahrwold), 758
with pyloroplasty or with antrectomy on food-stimulated gastrin values in patients with duodenal ulcer, effect of (Becker, Reeder, and Thompson), 580
Tubes, gastric, reversed, and bowel segments, esophagoplasty with (Groves and Silver), 381
Tumors, carcinoid, and medullary carcinomas of thyroid, humoral similarities of (Kaplan et al.), 21
cells with antibody-enzyme conjugate, selective iodination and cytotoxicity of (Philpott, Bower, and Parker), 51
transitional, of human urinary bladder, isolation of RNA virus from (Elliott et al.), 46
embolism, fatal, during examination under anesthesia (Arthur et al.), 466
immunology, horizons in (Morton), 69

U

Ulcer, duodenal, effect of truncal vagotomy with pyloroplasty or with antrectomy on food-stimulated gastrin values in patients with (Becker, Reeder, and Thompson), 580
one hundred patients five years after selective gastric vagotomy and drainage for (Amdrup and Jensen), 321
stress, and bile (Safaie-Shirazi and Zike) (letter to editors), 469; reply (Norton), 469
formation and hypoxia in rat (Mullane, Smith, and Wilfong), 326
University hospital, integration of full-time and voluntary surgeons in (Ballinger and Collins), 488
private surgeon in (Bricker), 494

Ureter–pancreatic duct anastomosis for exocrine drainage, clinical segmental pancreatic transplantation with (Gliedman et al.), 171
Urinary bladder, human, isolation of RNA virus from transitional cell tumors of (Elliott et al.), 46

V

Vagotomy, gastric, selective, and drainage for duodenal ulcer, one hundred patients five years after (Amdrup and Jensen), 321
on tissue gastrin levels in stomach and pancreas in rats, influence of (Becker, Reeder, and Thompson), 778
truncal, on insulin choleresis, effect of (Kaminiski, Rose, and Nahrwold), 758
with pyloroplasty or with antrectomy on food-stimulated gastrin values in patients with duodenal ulcer, effect of (Becker, Reeder, and Thompson), 580
Vagus nerves, intact and divided, serotonin levels in portal vein plasma after occlusion of superior mesenteric artery in dogs with (Strauss et al.), 333
Vascular prosthesis, new, for small caliber artery (Matsumoto), 519
Surgery ought to be, what the Society for (Presidential address, Society for Vascular Surgery) (Barker), 797
surgical training—a panel discussion (DeWeese et al.), 803
thrombosis, utility of anticoagulant drugs in: electron microscopic and biophysical study (Sawyer et al.), 263
Vasculature, fistula, Brescia-Cimino, standard, modified arteriovenous fistula applicable where there is thrombosis of (Buselmeier et al.), 551
Vasopressin, addition of isoproterenol prevents adverse hemodynamic effects of (Skivolocki and Thomford), 752
Vein bypass grafts, aortocoronary, anatomical and physiological determinants of blood flow through (Stinson, Olinger, and Glancy), 390
bypasses, Dacron and autogenous, in man and dog, transmission and scanning electron microscopic study of luminal surfaces in (Reichle, Stewart, and Essa), 945
deep, thrombosis, correlation with lower limb venography in diagnosis of: impedance phlebography (Harris et al.), 385
grafts, aortorenal, 100, fate of: characteristics of late graft expansion, aneurysmal dilatation, and stenosis (Stanley, Ernst, and Fry), 931
holder for preparing arterial grafts (Mansoori et al.), 789
plasma, portal, after occlusion of superior mesenteric artery in dogs with intact and divided vagus nerves, serotonin levels in (Strauss et al.), 333
saphenous, for arterial grafting, simple apparatus to assist in preparing (Perrin, Bayliss, and Baird), 786
splenic, thrombosis: diagnosable and curable form of portal hypertension (Salam, Warren, and Tyras), 961
Vein—Cont'd
thrombosis, deep, controlled study of thrombolytic therapy in (Tsapogas et al.), 973
Vena cava and hepatic artery of rat, continuous infusion into (Leivestad and Malt), 401
Venography, limb, lower, in diagnosis of deep vein thrombosis, correlation with: impedance phlebography (Harris et al.), 385
Venous ligation, femoral, canine, hemodynamics of: significance in combined arterial and venous injuries (Hobson et al.), 824
occlusion, femoral, canine, hemodynamic effects of sympathectomy on (Wright et al.), 405
prostheses, copolymer graft developed to serve in (Hasegawa et al.), 696
reconstruction, femoral, canine, autografts and homografts in: double-blind study (Wright, Hobson, and Swan), 654
sampling, selective, radioimmunoassay, and selective thyroid arteriography, localization of abnormal glands by: repeated neck exploration in primary hyperparathyroidism (Wells et al.), 678
Ventricle, left, chronic heart failure secondary to akinesis of: experimental study (Lloyd-Jones et al.), 607
intact, effects of isoproterenol and l-norepinephrine on function, coronary flow, and oxygen consumption of (Abe et al.), 562
Ventricular outflow tract, right, correction of tetralogy of Fallot in patients with one pulmonary artery in continuity with (Donahoo et al.), 887
Vessels, great, early operative management of injuries to (Reul et al.), 862
stenotic, during exercise, effects of sympathectomy on blood flow through: experimental study in canine model (Weissenhofer and Schenk), 734
Virus, RNA, from transitional cell tumors of human urinary bladder, isolation of (Elliott et al.), 46
Voluntary and full-time surgeons in university hospital, integration of (Ballinger and Collins), 488

W

Wounds, combat, of extraperitoneal rectum (Armstrong, Schmitt, and Patterson), 570
gunshot, and fractures, his demonstration of role of debridement in: Carl Reyher (1846-1890), great Russian military surgeon (Wangensteen and Wangensteen), 641
sepsis, burn, experimental, evaluation of five percent Sulfamylon Cream in control of (Skornik and Dressler), 540
in burned patients, prediction of: stimulated nitroblue tetrazolium test to assess neutrophil antibacterial function (Curreri et al.), 6

Z

Zollinger-Ellison syndrome, serum levels of parathyroid hormone in (Jaffe, Peskin, and Kaplan), 621
